In 1975 Mid-Med Bank Limited was established to take over the business of Barclays Bank International Limited in Malta and Gozo. Barclays had originally taken over, 50 years earlier, the business of the Anglo-Egyptian Bank, which bank had been established in Malta since 1881! So, in reality, though we are only 10 years old, our foundations were laid over 100 years ago.

Since its formation in 1975 Mid-Med has increased Customers' Funds by 137% and Advances to customers by 88% – a truly remarkable growth!

# IL-FLUS TQASSMU

•FIT-30 ta' Awissu 1986, dawk it-tlett membri tal-Korp; il-Kuntistabbli Peter Barbieri, il-Kuntistabbli Godfrey Cassar u s-Surgent Joseph Micallef, li kienu sfaw vittma ta' att terroristiku u gew midruba gravament fi spluzzjoni ta' bomba li tpoġġiet fl-Għassa ta' tas-Sliema, gew mogħtija bejnithom is-somma ta' Lm16,854.12.9. Ta' min ifakkar li din is-somma ta' flus ingabret minn fost il-poplu Malti kollu wara li d-dirigenti tal-Korp tal-Pulizija, permezz ta' ċirkolari interna kienu niedu fond li l-iskop tiegħu kien biex jingabru flus minn fost il-membri tal-Korp biex jingħataw lill-vittmi u l-familjari tagħhom. Is-solidarjetà li wrew il-membri tal-Korp, kif ukoll il-pubbliku in ġenerali permezz tal-kontribuzzjonijiet ġenerużi tagħhom kienet kbira hafna.

Ma nistax ma nsemmiex l-interess li wera l-Prim Ministru li sa mill-bidu nett, mill-ġurnata tad-disgrazzja, huwa ried li dawn it-tlett membri tal-Korp jingħataw kull għajjuna medika possibli. Hawnhekk ta' min ifakkar li wiehed minn dawn it-tlett membri kien mar barra minn Malta u rċieva kura speċjali.

Din id-disgrazzja tfakkarni f'disgrazzja oħra li kienet issuccedit qrib l-aħħar tas-sena 1984 fejn żewġ membri tal-Korp tal-Pulizija u membri oħra tat-Task Force kienu tilfu ħajjithom fuq patrol boat fil-qadi tad-doveri tagħhom. Żgur li kull min għandu fiit snin servizz jiftakar lil shabna s-Surgent Saviour Muscat u l-Kuntistabbli Joseph Hare. Il-ġurnata ta' din id-disgrazzja għadha fuq fomm kulhadd u żgur li hadd ma nesa l-ġurnata meta l-poplu Malti ħareġ fit-toroq biex jagħti l-aħħar tislma lil dawn iż-żewġ membri tal-Korp u l-membri l-oħra tat-Task Force.

Fiiit zmien ilu l-familjari ta' dawn iż-żewġ membri tal-Korp u l-familjari tal-Kuntistabbli Paul Zammit li kien ukoll miet f'disgrazzja waqt il-qadi tad-doveri tiegħu, irċevew is-somma ta' Lm5000 kull wiehed bhala għajjuna. Din l-għajjuna waslet minghand il-Gvern wara talba li kien għamel il-Kummissarju tal-Pulizija Dr L. Pullicino LL.D.

Permezz ta' dawn il-fiit linji nixtieq ukoll insellem lil ex Kuntistabbli Paul Zammit li dan, bhaz-żewġ membri l-oħrajn li semmejt kien tilef ħajtu waqt li huwa kien qiegħed jaqdi xogħol importanti biex jipprotegi lis-soċjetà tagħna.

Nixtieq ukoll niringrazzja lil Maltin kollha li wrew is-solidarjetà tagħhom mal-Korp tal-Pulizija.

## IR-REKLUTAĠĠ FIL-KORP TAL-PULIZIJA

**F'Lulju ta' din is-sena, ergajna rajna numru iehor sabih ta' wchuh godda fil-Korp tal-Pulizija. Dan sar wara li dawn ghadew minn ezami-jiet diversi.**

Bejn is-7/7/86 u t-3/8/86 sar id-dsatax il-Kors (crush course) ghal dawn ir-rekluti godda. Dawn bhal ta' qabilhom ghadew erba' gimghat flimkien, jitghallmu diversi suggetti li jirrigwardaw ix-xoghol ta' Pulizija, kif ukoll ezerdzizzi fizici.

Tul il-Kors, dawn ir-rekluti jibdedw il-gurnata bil-"Fall In" u "Drill Practice" li jsir gewwa is-C.I.D. 'yard'. Dan jibda fis-0700 sat-0800 ta' fil-ghodu. Wara jkomplu l-lezzjonijiet f'diversi suggetti minn diversi ufficjali tal-Korp, u anke minn lecturers pajzana li ma ghandhom bzonn l-ebda introduzzjoni. Wara l-lezzjonijiet, dawn ir-rekluti, jinghataw ikel servut fl-Other Ranks Canteen u provdut mill-kcina ta' Depot. Hawn ta' min ifahhar il-kwalita' tajba ta' ikel li jigi imhejji. Qieghed nggid ikel tajjeb, ghax wara diskussjonijiet ma min hu koncernat, qbilna li dawn ma jinaghtawx ikel li jhaxxen, bhal patata, ghagin, ecc. Dan ghamilnih ghax bejn is-siegħa u nofs u l-erbgha u nofs ta' wara nofs in-nhar dawn ir-rekluti jinghataw tahrig fiziku, u tahrig fis-'self defence'. Dan it-tahrig isir f'Ta' Kandia Police Training School, gewwa s-Siggiewi. Fil-hamsa, dawn jergghu jirritornaw id-Depot, u wara li jinghata l-'ALL COR-

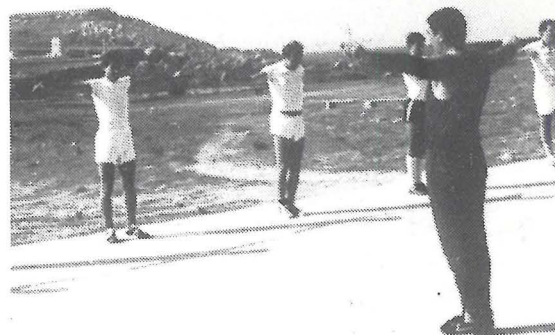

RECT' lil R.S.M. minn min ikun inkarigat dawn jintbagħtu d-dar, u jergghu jirritornaw l-ghada fil-ghodu.

Ta' min ighid ukoll li complaints ftit li xejn kien hemm, jew ahjar, ikun hemm. L-istess jista' jinghad ghal 'minor injuries' waqt it-tahrig fiziku. Ta' min ifakkar li ghalkemm it-tahrig fiziku kien jinghata dejjem wara nofs in-nhar u s-shana kienet tremenda, kulhadd ghamel hiltu kollha u kollox mexa kif mixtieq. Tahrig iehor importanti li dawn ir-rekluti ngħataw, kien tahrig fuq ir-revolver 'WEBLEY' small arms. Dan it-tahrig isir gewwa l-'POLICE RANGE', Floriana. Ta' min ifakkar li din l-arma hija t-tip ta' arma li Pulizija jiltaqa' magħha gewwa l-ghases.

Ghalkemm ma kienx hemm hin bizzejjed kif wiehed jixtieq, is-sustanza għal dan it-tahrig kulhadd jaf x'inh.

### GEST UMAN

Wiehed irid isemmi wkoll, il-gest sabih li dawn il-membri l-godda għamlu, kif għamlu ta' qabilhom ukoll, li marru jagħtu d-dem. Dan jekk inhu possibli sejjer jibqa' jsir fil-gejjieni. Fl-ahhar tal-Kors dawn il-membri godda rega' kellhom revizjoni ta'

dak li għamlu. Haga sabiha u tajba hija, li dawn il-Pulizija, gew 'posted' fl-ahhar gimgha tal-Kors, fejn wara nofs in-nhar, jinghataw tahrig skond fejn ikunu gew 'posted'.

Nghalaq billi nirringrazzja qabel xejn lill-Kummissarju u Ufficjali ohra, talli dejjem laqghu l-ilmenti tagħna, biex dawn il-'COURSES' ikomplu jikbru fuq skala tajba u ahjar ghal gid ta' pajjizna.

*Fir-ritratti jidhru Pulizija waqt id-Drill Practise (1); sejr in għal xogħol 'Posted' lilhom (2); u waqt it-Tahrig Fiziku (3).*

# MILL-ASSOĊJAZZJONI TAL-PULIZIJA

## PUNTI DWAR DIVERSI SUĖĖETTI GHAD-DISKUSSJONI

● MATUL din is-sena l-Kumitat Ċentrali ta' l-Assoċjazzjoni tal-Pulizija ma tantx iltaqa'. Dan m'ghamlux għax ma kienx hemm x'wiehed jiddiskuti iżda hafna mill-ilmenti li tisma' minghand il-Membri tal-Korp jikkonsistu f'dik it-talba li l-kumitat tas-sena l-oħra kien għamel fejn kienet saret talba sabiex issir laqgħa mal-Prim Ministru u li f'din il-laqgħa kellhom jigu diskussi diversi suĖĖetti li l-aktar jinvolvu l-Pulizija direttament. Halli nergħu nsemmu dawn il-punti u nġhidu xi haġa dwar kull wiehed minnhom.

1) Rigward l-extra duty li kienet inħadmet fl-1983 u sal-lum għadha ma thallsitx. Ahna ma nistgħux nifhmu x'inhu jzomm lill-Awtoritajiet sabiex il-Pulizija jithallsu ta' dik l-Extra Duty li kienu hadmu wara li l-flus kienu kollha ngabru. Ahna dejjem sostnejnja li l-Extra Duty qatt ma kienet Overtime u dan ġie aċċettat għaliex issa li reġġet ġiet introdotta l-Extra Duty minkejja li l-Policy tas-sospensjoni tal-Overtime fid-Dipartimenti tal-Gvern għadha sseħħ ifisser li la issa l-Extra Duty mhix Overtime l-anqas dik li nħadmet fl-1983 ma kienet Overtime.

2) Rigward it-tieni talba sabiex terġa' tibda tinħadmet l-Extra Duty din kif jaf kulhadd reġġet ġiet introdotta u ta' dan il-Membri tal-Korp urew l-apprezzament tagħhom lejn kull min għen sabiex din it-talba tintlaqa'.

3) Huwa ta' min josserva li r-reklutaġġ fil-Korp tal-Pulizija din is-sena ha spinta 'l quddiem billi deher li bdew jigu reklutati diversi membri godda f'perijodi qosra bejn reklutaġġ u iehor kif kienet issuggerit u talbet l-Assoċjazzjoni.

4) Il-membri stazzjonati fil-Habs Ċivili hemm hafna x'wiehed jġhid dwarhom iżda jidher li din is-sena sar xi titjieb u xi diskripanzi li kienu jezistu ġew eliminati.

5) Wahda mill-pre-okkupazzjoni l-aktar li tiehu hin u li tinvolvi xogħol lill-Korp tal-Pulizija huwa bla dubju l-investigazzjoni ta' diversi "traffic accidents" li jsiru ma' Malta kollha. Wasal iż-żmien li issa wara li n-numru ta' vetturi qabez il-mitt elf u d-diversi accidents żdied sew, jidher ukoll li l-maġġoranza ta' dawn l-accidents jkunu ta' natura hafifa u mingħajr korrimenti (j'Alla l-accidents kollha jkunu

mingħajr korrimenti), m'għadhiex aktar Prattika li min ikun involut f'dawn it-tip ta' accidents għandu jhalli l-vettura fil-post sakemm jigu l-Pulizija jkejlu minkejja li hafna drabi l-post tal-incident ikun traffikuż u min-habba dak l-accident jigi mizmum it-traffiku kollu. F'ċerti lokalitajiet ikun hemm aktar minn accident wiehed u sakemm tigi l-Pulizija minn post għal iehor jgħaddi l-hin u l-konfużjoni tat-traffiku aktar tikber. Ta' min isemmi wkoll il-hafna xogħol ta' paper work li kull kollizzjoni tinvolvi u li kif għed aktar qabel il-Pulizija tista' tiddedika l-hin tagħha għal aktar xogħol ta' siwi u importanza.

6) L-introduzzjoni tal-gimgha ta' erbġhin siegħa għall-Membri tal-Korp hija wahda mit-talbiet l-aktar ġusti li hemm pendent għaliex il-lum huwa fatt aċċettat minn kulhadd li l-haddiema kwazi kollha jgawdu din il-haġa. Fejn kien hemm xi diffikultajiet rigward il-pubbliku dejjem kien hemm alternattivi u naħsbu li għall-Pulizija hemm ukoll.

7) L-istess jista' wiehed jġhid għall-hlas doppju fil-Hdud u Festi. Il-Hdud u l-Festi jigu għal kulhadd anke għall-Pulizija u l-maġġoranza tal-Membri tal-Korp għandhom ukoll il-familji tagħhom li min jaf kemm-il darba jigu mcaħħda mill-prezenza tagħhom fil-Hdud u l-Festi għaliex ikunu xogħol.

8) Rigward in-nuqqas ta' trasport għal użu waqt ix-xogħol tal-Pulizija, nistgħu nġhidu li mar hafna 'l quddiem, speċjalment fis-sezzjoni tal-Mobile Unit, C.I.D., Security, eċċ. Izda fir-rigward tad-Distretti għad hemm hafna x'isir u li sar s'issa huwa ftit wisq. Nittamaw li l-affarijiet jirrangaw malajr u dan qegħdin nġhiduh sabiex inkunu nistgħu

Minhabba s-sitwazzjonijiet li jista' jiltaqa' magħhom waqt il-qadi ta' dmirijietu, l-Pulizija għandu jkun fizikament fi stat jekk hu possibli perfett jekk ma jridx li jkun suĖĖett għal kritika u din ma tantx tkun skarsa u hanina magħna. # FIBRE EVIDENCE

By P.C. 765  
S. ATTARD

When an 11 year old boy was murdered and sexually assaulted in England, the only clues were several carpet fibres recovered from his body and clothing. Through identification of these fibre, investigators were able to trace their manufacturer. By following up the manufacturer's records, they found that a local office building had been recently fitted with that particular type of carpet. It was learned that the carpet layer had been given the left over carpet. An interview with the carpet layer revealed that he had installed some of the left over carpet in his automobile which he had subsequently sold. The purchaser of the automobile was a student at a college located on the same street from which the murdered boy had disappeared! This student was interviewed and when confronted with the evidence eventually made a full confession. (Florida Times-Union, March, 17, 1982).

In western Canada, a man was accused of breaking into a house under construction. His shoes and a sample of carpet from the house were submitted to the author. The laboratory removed over 600 fibres from the mud-covered shoes. These consisted of at least 56 distinct types and colours. Not one of these matched the carpet of the house he was accused of breaking into. In addition, the accused gave an alibi that he was golfing at the time of the break-in. The mud from his shoes was found to be more consistent with the soil from the golf course than with the soil from around the house. Thus, not only was lack of association established, but his alibi was also substantiated.

It was fibre evidence which first enabled the authorities to link together the murders of several black children in Atlanta. The same fibre evidence played a large part in the subsequent conviction of Wayne Williams, whose defence attorney was subsequently quoted as saying 'I think the fibre evidence was the hardest evidence to overcome'.

Of course, not all cases involving fibre evidence are as dramatic as these. Fibre evidence is most often used to assist in establishing association between two individuals, between an individual and a crime scene, between an individual and an intermediate point (such as a vehicle) or between an individual and a weapon. Fibres from a wide range of sources occur as physical evidence in a large variety of criminal cases (see Table 1).

How do fibres come to occur as physical evidence? Whenever two objects come into contact,

there is always a transfer of material. In some cases, the amount of material transferred is too small to be detected. Also, the rate of loss of some material after transfer may be so great as to preclude detection a short time subsequent to transfer. The important point, however, is that a transfer of material invariably occurs. Since we are so frequently

in contact with textile materials in our daily lives, fibres are a prime target for transfer by the Exchange Principle.

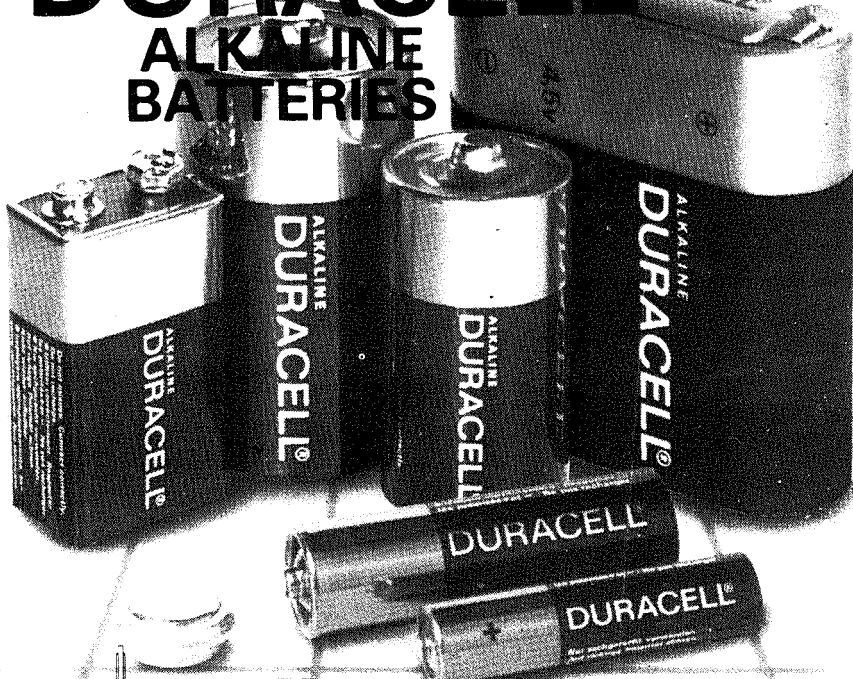

Since textile materials are mass produced, fibre evidence usually serves as corroborative evidence, rather than providing positive proof of association. The exact

## X'inhi l-A.I.D.S.?

L-A.I.D.S. hija marda nfettiva li tnaqqas ir-reżistenza tal-gisem kontra certu mard anke hafif bħal ma huma ċerti nfezzjonijiet li s-soltu l-gisem tal-bniedem jeghlibhom minghajr ebda tfixkil. Xi ftit minn dan il-mard, allura, isir serju hafna u anke fatali.

Hafna morda ta' l-A.I.D.S. isofru minn waħda jew tnejn minn dawn iż-żewġ mardiet: -

(i) **KAPOSI'S SARCOMA** - tip ta' cancer li jaffetwa l-aktar il-gilda iżda jattakka organi oħra.

(ii) **PENUMOCYSTIS CARINII PNEUMONIA** - forma ta' infezzjoni tal-pulmun (Pulmonite).

## Għaliex Tissejjah A.I.D.S.

A.I.D.S. tfisser 'Acquired Immune Deficiency Syndrome'.

Acquired - jiġifieri tittiehed u mhux tintiret.

Immune Deficiency - Din hija nuqqas ta' reżistenza tal-gisem kontra ċertu mard.

Syndrome - il-mard kollu li jaqbdet bħala riżultat ta' dan in-nuqqas.

## Kif Bdiet Din il-Marda?

L-origini ta' dan il-virus għadu mhux magħruf sew. Jidher li l-virus kien diġà jinstab f'partijiet oħra tad-dinja meta sabuh l-ewwel darba fl-Amerika u l-Ewropa.

## Min hu l-aktar fil-Periklu li Jimrad bl-A.I.D.S.

L-A.I.D.S. l-ewwel ma ssemmiet kien fl-Istati Uniti ta' l-Amerika u mbagħad fl-Ewropa fl-1981. Sa Marzu, 1986 ġew irraportati 'l fuq minn 21,700 każ ta' l-A.I.D.S. fid-dinja. Il-pajjiżi ta' l-Amerika kienu l-aktar pajjiżi li ntlaqtu - 19,427 mill-każijiet ġew irraportati f'dawn il-pajjiżi. Din il-marda hija assoċjata ma' kategoriji ta' persuni li għandhom riskju ferm akbar minn haddiehor. Il-gruppi ta' nies li għandhom l-aktar riskju li jimirdu b'din il-marda huma: -

- Irgiel omoesswali/bisesswali.

- Dawk li jieħdu d-drogi dirett fil-vina (kemm nisa u anke rgjel u li jużaw l-istess labar ta' xulxin).

Gruppi fir-riskju oħrajn huma:

- Pazjenti li rċevew demmm min għand xi hadd b'demmm nfettat.

- Nisa li jkollhom relazzjonijiet sesswali ma' rgjel li għandhom ukoll tendenzi omoesswali jew li jkollhom "partners" li kienu jieħdu d-droga fil-vina jew huma f'xi gruppiehor ta' riskju.

- Trabi li jitwiieldu minn ommijiet infettati bil-virus ta' l-AIDS.

Oħrajn jinkludu nies mill-Afrika Centrali, partikularment minn Zaire u Chad.

Fl-Ewropa u l-Amerika madwar tliet kwarti mill-każi ta' AIDS kienu f'irgjel omoesswali. Fl-Ewropa 3 fil-mija biss kienu fost il-haemophiliacs.

Hija haġa rari hafna biex issib

każi ta' l-AIDS f'persuni li ma jaqawx taht waħda minn dawn il-kategoriji (jew gruppi) msemmija hawn fuq.

## L-A.I.D.S. Tittiehed?

L-aħħar studju li sar juri li l-A.I.D.S. hija kaġunata minn virus (LAV/H.T.L.V.III) li jista' jiġi trasmess b'żewġ modi differenti: -

1. Jew waqt l-att sesswali speċjalment jekk l-att sesswali jsir mill-warrani (anal intercourse) peress li tista' tinstelaħ il-"mocos" tal-kanal ta' l-'anus'; infezzjoni tista' tixtered ukoll permezz ta' att sesswali regolari fil-vagina.

2. Jekk persuna tiġi f'kuntatt ma' demm li huwa nfettat. Xi whud minn dawk li jieħdu d-drogi fil-vina u li jużaw labar ta' hadiehor setghu mardu bl-A.I.D.S. peress li l-labar jistghu jkun ntużaw u ġew f'kuntatt ma' demm li jkun infettat.

M'hemm l-ebda ndikazzjoni li l-A.I.D.S. tista' tittiehed minn xi waħda minn dawn il-modi li ġejjin: -

- Kuntatt soċjali (kaswali, mhux sesswali) ma' persuna nfettata; jew

- Kuntatt kaswali ma' ndividwu nfettat, bħal per eżempju, fi skola, jew li tgħix jew taħdem ma' gruppi ta' persuni fejn jista' jkun hemm xi hadd marid bl-A.I.D.S.; jew

- Mill-ikel jew xorb jew billi tuża' platti jew kikkri, tazzi jew pużati ta' haddiehor; jew

- Qtar jew titjir ta' bzieg ikkaġunati minn tagħtis jew sogħla.

Sal-lum ma kien hemm l-ebda każ ta' A.I.D.S. fost il-kuntatti fil-familji tal-21,700 każ ta' l-A.I.D.S. imferrxa madwar id-dinja, ħfief f'ċerti każi fejn kellhom relazzjonijiet sesswali ma' persuna oħra nfettata jew f'każ ta' tfal imwiielda minn

# Fatti dwar I-A.I.D.S.

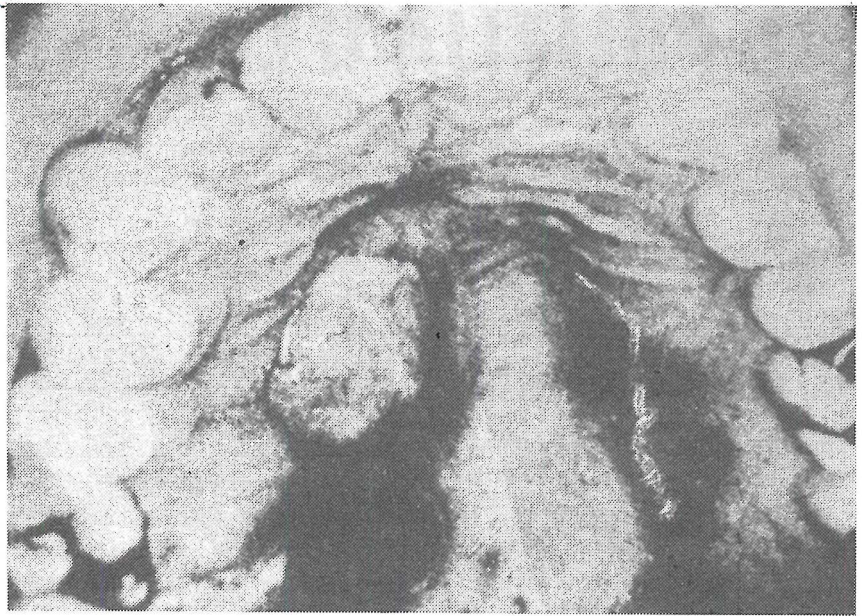

ommijiet infettati bl-A.I.D.S. L-infezzjoni fit-trabi probabilmement tigri matul it-tqala.

Il-virus tal-A.I.D.S. gie isolat ukool fil-bzieq. Però m'hemm l-ebda prova li l-marda tittiehed mill-bzieq. Il-parti l-kbira tal-pazjenti li kellhom il-virus isolat minn demmhom ma ghandhomx il-virus fil-bzieq taghhom. Rigward dawk li jahdmu fil-qasam tas-sahha b'mod partikulari dawk li jahdmu fl-ispitarijiet, sar studju fost haddiemma li jahdmu fi spar u li kienu f'kontatt dirett u kontinwu ma' pazjenti bl-A.I.D.S., kif ukoll mad-demm taghhom. Dawn gew investigati biex jinstab jekk ittiehdwx bil-virus tal-A.I.D.S., u nstab li r-rizultat kien persistentement negattiv u ghalhekk instabu hielsa minn kull infezzjoni. Barra minn hekk nistghu nghidu li fi studju iehor li sar fuq 1750 haddiem li jahdmu fil-qasam tas-sahha, bhall tobba, dentisti, nurses, ecc., u li accidentalment tniqgzu minn labar kkontaminat bid-demm ta' pazjenti morda bl-A.I.D.S. erba' biss minn dawn zviluppaw rizultat pozittiv bil-virus tal-A.I.D.S. Ghalhekk li wiehed jikkura pazjent, marid bl-A.I.D.S. ma huwiex xi riskju kbir.

## X'inhu c-Cans li persuna nfettata bil-virus tizviluppa l-A.I.D.S.?

Madwar tnejn minn kull tlieta tal-persuni li gew infettati bil-virus LAV/HTLV III u li baqghu jigu osservati ghal mhux anqas minn hames snin ma kellhom ebda sinjal ta' marid. Peress li l-marda ilha tigi studjata biss dawn l-ahhar snin ghadu mhux possibbli tghid b'certezza x'inhu r-riskju wara hames snin.

Dawn l-individwu pero ghandhom infezzjoni persistenti u xi whud minnhom probabilmement jibqghu jistghu jghaddu l-infezzjoni lill-haddiehor.

Is-sintomi fil-halq ta' pazjent milqut bil-marda ta' l-AIDS

Il-kumplament ta' wiehed minn kull tlieta jkollhom marda li tvarja fil-qilla taghha minn dik li tissejjaħ ARC (AIDS Related Complex) ghal dik il-marda li tissejjaħ A.I.D.S.

## X'inhuma s-Sintomi?

Stenna naqra..... issa mhux ghax ser taqra fuq dawn is-sintomi ser tghid li ghandek hekk..... jew hekk..... u hekk..... u allura ghandek l-A.I.D.S. Il-probabilita hija li m'ghandekx.

□ SEJRIN naghtu bidu għal sensiela ta' artikli rigward l-eżerċizzi fizici li jikkoncernaw lill-membri tal-Korp tal-Pulizija. Dan sejrjn ngħamluh, biex iġhin lil dawk il-membri tal-Korp biex izommu l-figura aktar pulita, kif ukoll aktar bogħod mill-mard.

**MIS-SURGENT 442**  
**RAYMOND ZAMMIT**

Nibda biex b'dispijaċir insemmi li hawn numru kbir ta' pulizija, li jgħidulek, li issa kibru fiż-żmien, jew ma jifilhux għal ċertu eżerċizzi. Dan ma hu minnu xejn. Thallux li għal ftit għaẓż tmorru l-baħar. L-eżerċizzi li sejrjn ngħidulkom, huma għal dawk ta' età ta' bejn il-ħmistax u l-ħamsa u sittin sena. Barra minn hekk jgħinu kif semmejna aktar 'il fuq lil dawk li għandhom ħxuna żejda, u b'hekk ma jistgħux iżommu 'smart' kif jixtiequ, u jgħin ukoll lil dawk li huma 'under weight'. Irrid infakkarkom ukoll, li dawn l-eżerċizzi, wiehed jista' jagħmilhom id-dar fil-kwiet, bil-kumdità u bi spejjeż ta' xejn. Biex wiehed jieħu ideja ta' kif għandu jkun fil-piż u qisien ta' partijiet ta' gismu, għatu titwila lejn it-tabella mmarkata (FIG A).

Infakkarkom ukoll li min ipejje, għandu jnaqqas ftit kull darba. Sigarett inqas kuljum jgħodd hafna. L-istess jingħad għal dawk li ma jgħaddux mingħajr xorb alkoħoliku. Mela biex tghin lilek innifsek tieqaf minn dan il-vizzju, għamel u għid lilek innifsek hekk:

"Jien irrid inkun b'saħħti, ngħix iżjed u aħjar."

"Niffranka aktar flus."

"Irrid nieqaf, irrid niġgieled lil dan il-vizzju qerriedi."

Għal dawk li huma midhla sewwa tal-Body building, ċertu Steve Reeves, Bodybuilder ta' fama mondjali kien qal hekk:

Qatt tghid lilek innifsek, "Ma rridx inpejje iżjed", semplici-ment għid kull fil-ghodu "Il-lum ma rridx inpejje". Hemm riskju

Mela niġu għal bidu ta' l-eżerċizzi.

Qabel xejn, l-ewwel haġa li wiehed għandu jagħmel, hu li jagħmel vista għand it-Tabib. Dan isir biex wiehed jaċċerta ruħu li ma għandu l-ebda difetti jew sinjali ta' mard. Wara li tkun għamilt dan, u sibt li kollox sew, wiehed irrid isahħaħ il-muskoli. Għalhekk ibda għamel mixja ta' lanqas żewġ mili kull darba, għal tliet darbiet fil-gimħa, darba iva u oħra le. ## FIBRE EVIDENCE

● *continued from page 5*

evidential value of fibre evidence is dependent on the circumstances of a particular case and can range from very low to being sufficient of itself to establish an association.

Let us now look at the crucial three part role the investigator has to play in fibre evidence. The investigator must:

- 1) be alert to the possibility of finding fibre evidence;
- 2) carefully recover and package exhibits suspected of supplying fibre evidence; and
- 3) take steps towards contamination prevention.

The remainder of this article will be concerned with the last two of these.

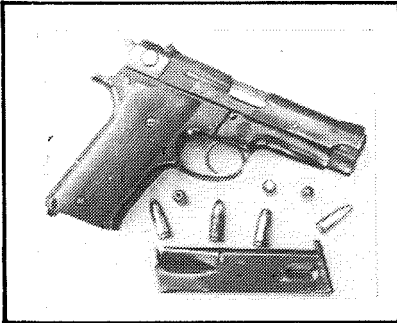

If an item suspected of having adhering textile fibres is at all portable, the simplest and best method of exhibit recovery at the scene is to seize and package the entire item. Each item or article of clothing should be packaged **immediately** in its own separate clean container. Clear plastic vials are recommended for small objects. Clear plastic bags are the best containers for clothing and other large objects to be examined for fibre.

If, however, the requirement to preserve other types of evidence (eg. Blood) is deemed of primary importance, paper bags which have no exposed inside seams can be used, provided they are clean and securely sealed. For exhibits which cannot practicably be submitted to the laboratory, evidence fibres should be collected by placing clear cellulose tape in contact with the area in question.

The tapes should then be placed (adhesive side down) on a sheet of clear plastic which should then be submitted to the laboratory. Various locations on an object should be taped separately, with the investigator carefully noting each location taped.

From the above, one can see that Fibre evidence can play an important part in many criminal investigations. It is important that the investigator be aware of the possibility of fibre evidence and know how to properly package exhibits and prevent contamination.

● **THERE** are few more evocative subjects than that of the gun. To some the image immediately conjures to mind the winning of the West, to others the issue of law and order at home, to some again a flood of childhood memories, the first shot with a twelve bore shotgun at an empty milk can or a cactus. This sort of memory can confer the gun for ever with nostalgia and romance which growing older simply intensifies. To others again it stands as a reminder of the gulf between the classes or at least between the moneyed and the not so well off. And there are those who see the gun as a mark of social superiority just as others see the horse as a great divider and that is one of the major reasons that the editors of this magazine "Il-Pulizija" decided to enlighten the readers about guns.

It is a normal way of introducing a new subject on a Magazine by illustrating the history at the very first instant, but due to the uncertainty of the origin of the gun and gunpowder, we would not like to attempt writing for instance the discovery of gun powder which lies shrouded in the mists of time.

Therefore we are going to give some highlights on various firearms which are familiar to us on these islands. Reasonable enough we are to start by giving a brief history on the Webley revolvers. We are sure that this firearm is very well known among the members of the Malta Police Force. Obviously these firearms are manufactured by Webley & Scott Ltd. Handsworth Birmingham, England. (Formerly P. Webley & Son (1860-1897); Webley & Scott Revolver & Arms Co., Ltd., (1897-1906); Webley & Scott Limited (1906-)).

Philip Webley bought the business of William Davis, a Birmingham gun implement maker, in 1845, and started manufacturing percussion cap and ball revolvers in 1853. When Colt shut down his London factory in 1857, the field was opened to British gunmakers. He removed the main competition in the field of mass-produced handguns, and Webley was not slow to take advantage of the opening. For some years, Webley had been striving to produce interchangeable components, and

to get away from the individual hand-produced weapons which were still the standard production of the British gun trade. The American Civil War gave a needed fillup to the business, and small government contracts followed it.

## DIFFERENT DESIGNS AND VARIANTS.

The firm always concentrated on revolvers, with only one brief essay into automatic pistols, and were never afraid to seek new ideas or to employ talented designers. Infact, the history of the firm is enormously complicated by the number of different designs and variants that were brought out. Having settled upon

a satisfactory design the tendency was to stay with it, introducing modifications as experience dictated, but striving to retain as much of the original as possible. Thus, in one series of a revolver, say, the R.I.C. models, there was a steady improvement on the original from 1870 through to 1883, with alterations to the action or the calibre on different occasions.

In general, it must be said that the Webley revolvers were, and still are, among the best that have been made for the mass market. They all combined good workmanship with extreme reliability and robustness. They were carried by soldiers, Police and civilians all over the British

Empire, in innumerable colonial wars, and in two World Wars. The record of the Webley is as good as any other revolver the world has so far seen, but the glamour of the cowboys and his legendary exploits in the American West has robbed it of its rightful place, and concentrated the popular mind upon the Colt.

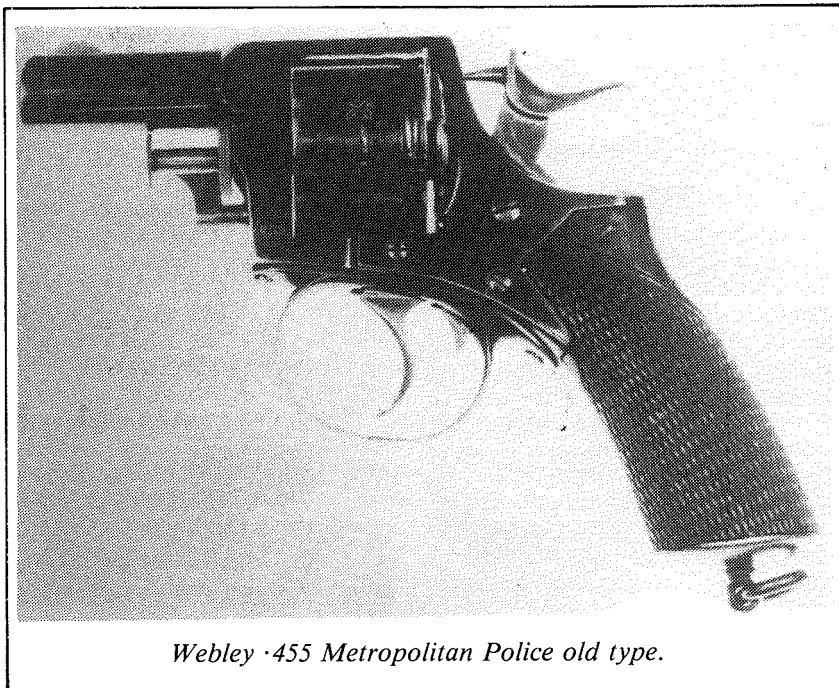

The first Webley revolver to be dealt with in this issue is one which carried the reputation and fortunes of the firm for several years, the Royal Irish Constabulary solid-frame models.

## ROYAL IRISH CONSTABULARY

### DOUBLE-ACTION MODELS

**.450 Model 1872.** In 1867, P. Webley & Son manufactured the first of a series of a pattern of revolver which was to remain in production until the early years of the twentieth century. This revolver was adopted by the Royal Irish Constabulary when that force came into being in 1868, and the weapon immediately took the name from them. There were many variations in different calibres and barrel lengths, but all were solid-framed type of considerable durability and reliability. The first model which comes within the scope of this text is the civilian copy of the R.I.C. revolver built for a .450 cartridge. The barrel is 3½ inches long, and has a small curved foresight on the muzzle, a typical feature of the Webleys of that time. The butt is rounded to fit the hand and the wooden grips are heavily checkered. The malleable iron solid-frame is almost identical with the Police Model, differing only in the compound curve at the hammer-slot. The cylinder is loaded and the cases ejected through a spring-loaded gate on the hand side of the frame, the swivelling ejector rod being housed in a hollow cylinder axis pin.

The cylinder is a solid block, machined to provide locking

notches at the rear, and a ratchet. It rotates to the right. The hammer is generously proportioned and the flat curved spur is easy to work with the thumb. The trigger guard is one of the features of this model, being unusually large and oval in shape. The working parts are few and well made, contributing to a long life with few breakdowns. In fact, the R.I.C. model is made throughout with an eye to simplicity and resistance to wear and rough handling, all facts which contributed to its popularity and steady sales.

**3½ inch Barrel Model 1872.** This model came out in 1872, shortly after the 3¼ inch barrelled version; however, there is more to this revolver than a simple change of barrel length. There are several minor changes, mainly in the sections of the components. The gate parts are square in section, instead of rounded, and the top strap is humped at the rear. The hammer slot reverts to the shape of the Police model, running in a clean curve to the top of the butt. This is curved, but not quite so much as with the 3¼ inch version, and it has a lanyard ring in the base.

The cylinder is identical with the earlier model, and takes the .450 cartridge which was produced by Webley for this

series.

**2½ inch Barrel .442 inch Barrel 1872.** This snub-nosed revolver is the forerunner of the whole Webley range of short barrelled hand guns. It first appeared in 1872, a year of innovation for the firm. Although it is one more variant of the R.I.C. revolvers, it has certain minor differences from the two .450 models. The frame is largely similar to the first .450, but it is more rounded off at the front, and foreshortened. The cylinder release is different, and in fact seems to have come from an earlier .557 weapon. There is no ejector rod, and spent cases are removed either by a separate tool — through the same right hand gate or by removing the cylinder entirely. Strangely enough, for a revolver that was meant to be carried in a holster or pocket, the foresight was quite out of character. It was a small solid bead instead of the more usual and practical rounded blade. The trigger guard was still the large oval of the other models, and all told, this little revolver must have made more than a small bulge in the pocket.

## SEXUAL OFFENCES

A single view may be very misleading in cases of this kind. A view of the SOC may appear very desolate and uncivilized with the camera turned in one direction, while a slight change in camera position may show that the spot (of rape) is very near a dwelling house. Standing alone would be prejudicial to the defendant if introduced in evidence by the prosecution because this picture creates the impression that the scene of the alleged crime is of the type that would probably be chosen for the commission of a sexual offence.

## FINGERPRINT - FILMS

All the contrast producing panchromatic films can be utilized in the finger-print work. Medium contrast film such as the Agfa Finopan or Eastman Panatomic X, should be used. High contrast films such as the Agfa Copex, the Ortho-8ASA speed or the slow 25 ASA film, which gives satisfactory results.

## WHITE FINGER PRINT ON COLOURED BACKGROUNDS

To produce the proper ridges contrasty enough to be photographed a same colour filter should be used. i.e. if a white F/P is imposed on a light blue metal tin, a light blue filter is to be used. It lightens its own colour and darkens its complimentary. It means that the background will lighten while the finger-print will finally darken, therefore the more contrasty.

## FINGERPRINT ON STAINED WOOD

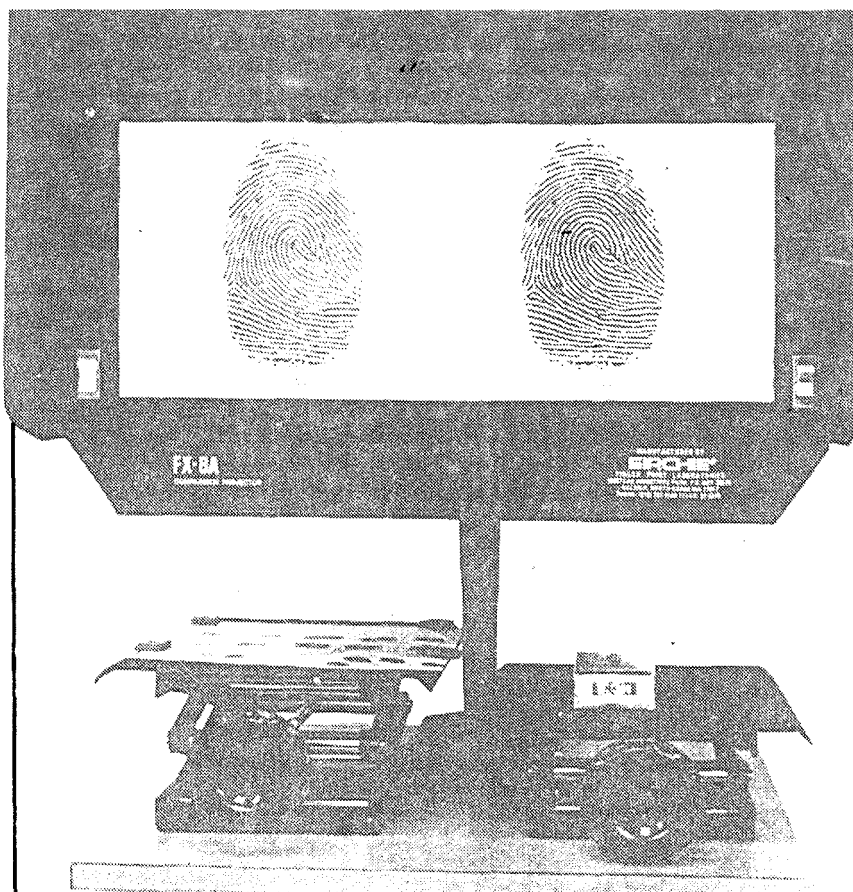

Applied photography of F/P as found on stained wood such as mahogany, oak and laminated plastics should be illuminated by oblique lightening; without the development by powder. But ordinarily they are so faint that

powder development is necessary. The question arises, therefore, as to which powder (colour/shade wise) to be used in order to contrast with white/black fingerprints or whether it should be photographed to contrast with white F/P.

Since wood in general comes under a shade of colour, it can be made lighter or darker by means of filters. In order to make a

court exhibit, it is necessary to record black on white and to show the ridges as black lines on a white background.

Grain pattern never interferes with F/P pattern. F/P on dark stained wood normally is developed with silver powder and photoed with a blue filter on panchromatic film. All F/P powders are so refined, that it stains almost any surface and is a bit

awkward to remove.

### FINGER PRINT ON GLASS

Any powder develops F/P on glass unless it is smooth. It will not stain at all. F/Ps on drinking glasses, tumblers, mugs, glass ashtrays, plates and glass panes can be photographed using oblique lighting after developed by powder. They also can be directly photographed. If any F/Ps are present on light bulbs, one good remedy is to remove or break the electrical connector and fill the bulb with some coloured liquid. Same is for clear empty bottles.

### FINGER PRINT ON PAPER

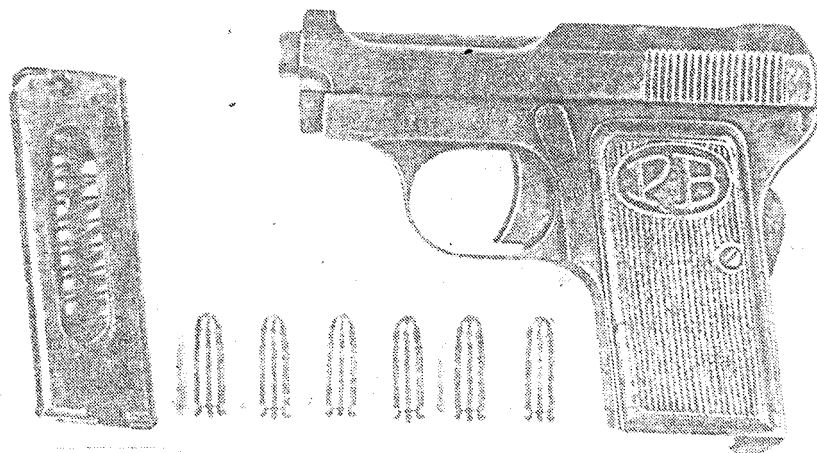

Dirty or bloody hands sometimes will leave impressions on paper that can be photographed almost as easily as prepared ink impressions. Paper may retain good colourless impressions by the moisture of the skin. Such F/P can be developed by means of fuming with iodine crystals or aqueous reagents. Brush powdering should never be used on paper. A small amount of powder should be placed on paper and moved back and forth by slanting and tapping until the desired F/Ps are brought out.

### X RAY FINGER-PRINTS

The making of X ray photos of the friction ridges of the fingers is known as DACTYLOSCOPIC RADIOGRAPHY. Ordinarily the only occasion for the use X ray photos is in the taking of F/P of a dead body that is in an advanced state of putrefaction. Advanced decomposition of body will render the skin tissue as blurred or cause the skin to peel off and adhere to the inking plate.

The friction ridges of the finger to be photographed are smeared with a coating of bismuth of lead carbonate or a mixture of 20 pts of white lead to 100 parts of paraffin. These substances are relatively opaque to X rays.

The excess of salt is removed so that the depressions or furrows are filled while the ridges are left clear. The salt-impregnated depressions are rendered opaque to X rays and therefore, photographed as transparent lines and

*Photographing of small arms and accessories.*

the uncoated ridges let the X rays through and appear black on X ray negative.

### BALLISTICS

**Ballistics** is the science of the motion of projectiles.

A person who identifies bullets and shells with the weapon from which they were fired is a forensic ballistic expert. Ballistics is the science of motion of a projectile. When empty shells are found at the scene of shooting, it is very desirable to be able to prove whether or not they were fired from the suspect's weapon.

A modern firearm cartridge consists of a case or shell which holds a primer/percussion cap, charge of powder and a projectile which may be a single bullet or a number of shots. When the hammer or firing-pin struck the primer then the firearm is discharged. The material within the primer capsule, ignites when struck, ignites in turn the layer charge of gun powder which propels the bullet.

Cartridges are found to be Rim-fire or Central-fire, according to the location of the primer.

**Rim-fire:** the entire base is the primer and is discharged when struck on edge of cartridge base.

**Central-fire:** the primer is situated at the centre of the base, when the centre is struck the primer ignites and discharges. The cartridge fits in the breech end of chamber of the weapon and is sealed by a solid flat piece of steel called breechblock. The breechblock is finished by ma-

chinery or hand filing. In either case many fine scratches are left on its surface like minute furrows and is likely improbable that any two breechblocks would have the same pattern of file markings just as it is very unlikely that two same persons have the same pattern of friction ridges on tips of their fingers.

When a cartridge is fired, its base jams back against the breech-block with a force of from 2 to 20 tons per sq. inch. Since the shell is made of softer metal than the breech-block, very often the markings of the breech-block are stamped on the base of the cartridge. Depending upon the weapon, the marks imprint will appear either in parallel furrows or as concentric furrows. Since the tool markings of the breech-block of a given weapon are unlike those of any other weapon.

When two shell bases are stamped with identical breech-block markings it can be concluded that both were fired from the same gun or pistol. When spent shells are found at the scene of shooting. Test cartridges can be fired from suspected weapons. Close-ups of both test shells and evidence shells will show all the points of identity. Sometimes markings are hardly found on rim-fire shells but sometimes on centre-fire shells. This is because the percussion cap is of centre-fire cartridge is of very soft metal and takes imprints easily. While the base is of harder material and less apt to be imprinted.

**ACTIVITIES

ENTERTAINMENT  
COMMITTEE**

**BAR-B-Q**

— On Saturday 26th July 1986 a Bar-B-Q was organised by the Entertainment Committee, at the Argotti Gardens, for members of the Force, their families and guests.

This function was originally intended for 400 people, but the inevitable happened due to the success of last year's same event, and the tickets for this year's Bar-B-Q were sold out in a few days. In view of the fact that more members wanted to attend, the Committee agreed to put up the number of tickets to 542, and these too were sold out. In this way many of the members who were going to be left out were able to attend.

**EVENING PACKED  
WITH VARIETY**

The Police Musical Group provided the music throughout the enjoyable evening, with the group from Wardakanta, The Jolly Jokers, Chris the Magician, Vittorin Galea Dramatic Company, the Birzebugia Dancing Group, Delfini Ferrieħa, Ace Disco, and some of the members from the Brilliant Brass Band filled in the evening's programme much to the delight of those present. PC 890 P, Calleja, who acted as stage manager and comper, went through with the items with flying colour.

Our canteen staff too deserve a word of merit with the sumptuous choice of barbequed pork, chicken and steak, with a selection of fresh salads, they provided for the guests, together with fish fints and a glass of wine.

The Entertainment Committee would like to take this opportunity through this media, to thank all those who in one way or another, helped to make this function the success it was.

**POLICE CHILDREN  
SUMMER CAMP**

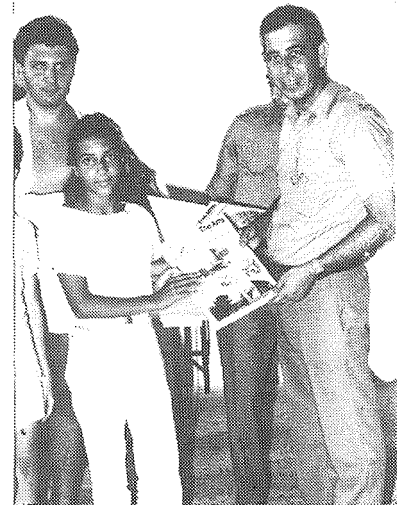

**The Malta Police Children's Summer Camp was this year held at St Paul's Bay Primary School, between Monday 11th and Saturday 16th August. Fifty five children attended this year's Camp and were attended to by six members of the Force and their wives.**

On Monday, being the first day, the children gathered at the Police Canteen in Floriana, and were taken to Ta' Xbiex from where they boarded a seacraft which took them on a pleasure cruise around the Grand Harbour. From there they proceeded to the St Paul's Bay Hostel where they were sorted out in groups and given their sleeping quarters. In the afternoon of that same day they were taken for swimming at Ghajn Tuffieħa Bay, and in the evening they were entertained to film shows.

After breakfast on Tuesday, the children were again taken for a half day swimming spree, this time at Ghadira Bay, and in the afternoon they enjoyed themselves at the Cresta Quay, where soft drinks and snacks were distributed to the children and helpers by the management of the Villa Rosa Complex. In the evening a game of football was organised for young and old alike, much to the delight of the

children present.

After waking up at 6.30 a.m. on Wednesday, the group were given breakfast, and afterwards transport was awaiting them to take them to a full day's outing to Gozo. Transport was also awaiting the group at Mgarr, where they were taken to Xlendi Bay. Packed lunch was distributed to the group, and at 1.00 p.m. it was Marsalforn Bay for a long enjoyable afternoon swim. Soft drinks were here distributed to us with the compliments of Mr Dennis Borg. We took the 7.00 p.m. trip back to Ċirkewwa, and the children and helpers arrived at the St Paul's Bay Hostel at about 8.45

# POLICE CHILDREN SUMMER CAMP

p.m. After showers and dinner most of the group called it a day and went straight off to bed.

The venue for Thursday was Pretty Bay in Birzebbuga, and after a morning of splashing about the group were hosted to by the Al Fresco Restaurant Management. In the evening came the much longed for Bar-B-Q, in which the childrens' parents took part.

On Friday morning it was swimming "At Home" at St Paul's Bay, and after a quiet restful afternoon at the Hostel, Mass was organised at the Main Hall celebrated by Rev. Fr W. Chetcuti, Parish Priest of Gzira, who also said a few words to the group assembled about Our Lady of Assumption, whose feast was being celebrated that day throughout these Islands. In the evening the children and helpers enjoyed themselves with indoor games.

Saturday being the last day, after leaving the locality spick and span, the children and their helpers returned to Police Headquarters in Floriana, where

*The helpers and organisers of the Police Children Summer Camp in a group photo.*

a book token was presented to all the children who attended this Camp by Sgt. Joe Calleja, editor of the Police Magazine, on behalf of the Commissioner of Police, Dr Lawrence Pullicino. The children were afterwards called on by their parents homeward bound, no doubt giving them a real headache on the way detailing them with their stay at

the Camp.

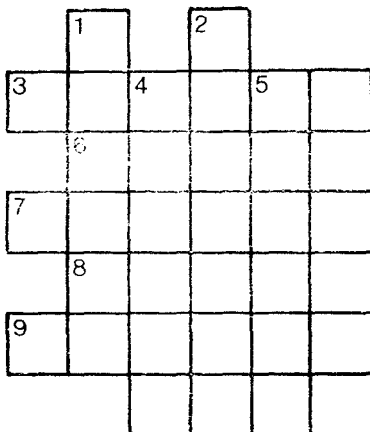

We would like to take this opportunity to thank all those who made this year's annual camp the success it was, organisers', helpers, donors, and all those who in one way or another were at our call to make this years' Annual Summer Camp for our children a happy event.

# CANARIES

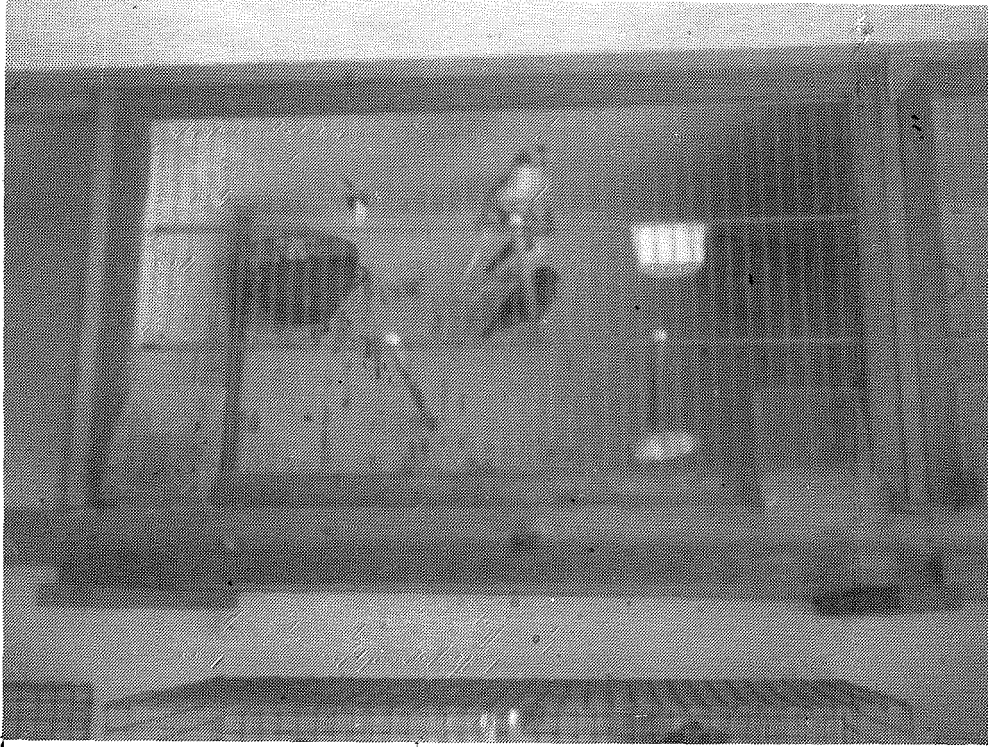

## P.C. 522

## CHARLES

## BALZAN

☐ **Reasons for breeding canaries are endless. There are breeders who concentrate on feathering, posture and conformation. They raise such varieties as Glos- ters, Borders and Yorkshires. There are others who are interested in colour and patterns. Here the most popular are the Red Factors, but the Bronze and Lizards are gradually becoming quite popular. Some of these colour birds are also good singing birds.**

I have kept and raised a variety of Canaries over the years and have found all of them interesting and challenging. Initially I obtained a pair of common canaries and by the end of the season, these produced about twenty youngsters, which attracted me further in this hobby. Four years ago a friend of mine invited me to see a birdshow. I was immensely impressed by the species on show and this encouraged me to try to breed and raise species like Glos- ters and Norwich. Changing from standard to another was difficult, because I had to obtain all the information about the new species. It is undoubted advantage to buy both pairs from the same source in order to be sure of the standard of the youngsters produced during the initial breeding season. A well tried method which I use is to keep all birds in training cages on a top shelf. This ensures that the cages are handled every day for feeding and watering. The aim of this exercise is to try to produce a specimen which will not only show itself but will

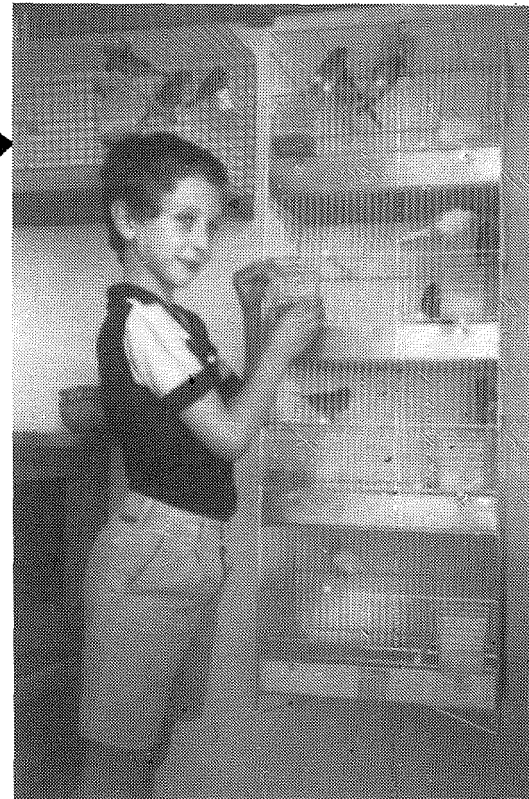

*"... I allow the canaries time to settle down in their new quarters".*

*Young Balzan lends a helping hand*

be steady enough when handled by a judge.

When I finally make the selection of stock I intend to mate, I allow the canaries time to settle down in their new quarters and surroundings. This will provide a better chance to get to know them individually, and will prove very helpful during the breeding season. Once mating has taken place, a nest-pan is to be supplied and usually a nest will be built within a few hours. When the eggs are laid, these are removed one by one and returned in the evening prior to the fourth egg being laid. The hen is left to incubate and rear on her own until the eggs hatch. If the youngsters succeed, these should be left with their mother for a few days. After the youngsters have been separated for a few days, egg- food should only be given, followed by ground seed until eventually these are feeding on plain canary seed. Lettuce and slices of apple are also offered and plenty of water is to be supplied for bathing purposes. All my stock benefit from the provisions of bathing facilities at least twice a week, and any individual which refuses to take a bath, is given a light spray of water.

By this time I have learned the basic techniques, however it is suggested that birds are shared and compared with other people's birds. Some people aim to make money from breeding canaries. Those who have such an intent are to forget it as no one becomes rich from breeding canaries. Good breeders consider themselves fortunate if they break even.

My principal aim now, is to participate in a bird show.

## POLICEWOMAN WEDS

•Married recently at Balluta Parish Church were policewoman Rose-Ann Garzia of Floriana and M.F.A. footballer J.J. Aquilina.

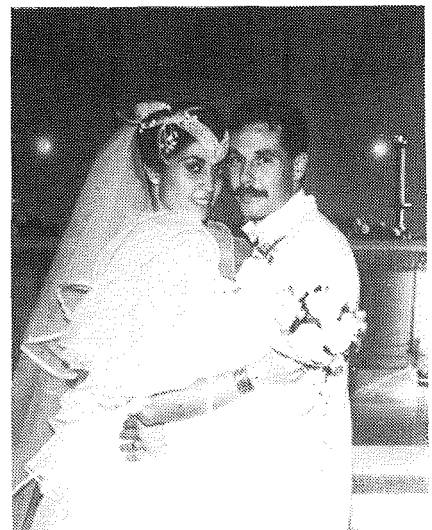

Nuptial Mass was concelebrated by Fr Anton Dalli and Fr Victor Enriquez. The wedding ceremony was witnessed by Mr Frances Busuttil for the bride and Mr Martin Sacco for the groom. Mr Brian Borg Testaferrata acted as bestman. Mrs Doris Busuttil was Maid of Honour while Amanda and Robert were flower girl and page boy respectively.

The groom's sister Miriam and her fiancé Paul escorted the couple. The bride wore a silver-dotted organza dress with a deep V-necked frill with a V-shaped headdress made of pearls and glittering beads set off with ostrich feathers.

A reception followed at the Galleon Room, Atlas Hotel, St Andrews at which the Police Jazz Group was in attendance.

The couple spent their honeymoon at Madeira, Portugal and Las Palmas, Canary Islands.

## LEGAL NOTES

By Dr Vincent A. Degaetano  
LL.D., Dip. CRIM (CANTAB)

Misdirection by trial judge – comment by trial judge on the accused’s failure to give evidence – order for re-trial.

Mikiel Vella, Mario Fenech and Melvin West were indicted together on a charge of voluntary homicide. By six votes against three the jury found each one not guilty as charged, but by the same number of votes found each one guilty of complicity in voluntary homicide. Vella was sentenced to twenty years imprisonment, Fenech to fifteen and West to ten years. In the course of his address to the jury the trial judge observed that there was a point which he would have liked not to mention but which, as the trial judge in the case, he felt morally bound to comment on. He explained that the accused could, if they so wished to, have taken the witness box and in that case they would have been obliged to tell the truth like any other witness; and that an accused who elects to give evidence has to face up to the risk of examination and cross-examination and to rely truthfully to all the questions put by counsel, by the judge and by the jurors. Had the accused elected to give evidence, they would have had to face up to the risk of replying to all the relevant questions put to them by the Public Prosecutor; but, continued the trial judge, in this case, the three accused, for reasons best known to them, chose not to give evidence. Later on in his address, the trial judge said:

“And now, gentlemen of the jury, I have to do something which I would have preferred not to, especially since this is my first address to a jury. I am referring to a fact which the law does not allow even the prosecution to refer to, namely the fact that the accused did not take the witness box and face up to the risk of questions from every side of this Court. Defence counsel placed considerable emphasis on the consistency of the statements of the accused to the police, so much so that the learned Prosecutor took a lot of time in his reply to point out inconsistencies; but the accused did not dare sub-

mit themselves to the risk (of examination and cross-examination) so that we could see whether they remember exactly, four years after the event, what happened and what did not. This is an ugly and hard fact which you have to consider. I felt that I had to exercise this discretion, which the law leaves in the hands of the trial judge, in the best interests of the administration of justice and, I repeat, against my wish. Because this is a very ugly and hard fact.”

Vella, Fenech and West appealed on the ground, *inter alia*, that the trial judge had misdirected the jury over the question of their electing not to give evidence.

In an elaborate and lengthy judgement, the court of Criminal Appeal held that –

1. Section 630 of the Criminal Code, introduced by Act VIII of 1909, provides that “the party charged or accused shall, at his own request, be admitted to give evidence on oath immediately after the close of the prosecution, saving the case where the necessity of his evidence shall arise also at a subsequent stage, or the Court sees fit to vary the order of the evidence; and such party may be cross-examined by the prosecution, notwithstanding that such cross-examination would tend to criminate him as to the offence charged; provided that the failure of the party charged or accused to give evidence shall not be made the subject of adverse comment by the prosecution”. This section was modelled on a similar provision in the (English) Criminal Evidence Act, 1898 (61 and 62 Vict. c. 36), and it was therefore important to examine also English case-law on the matter;

2. The prohibition of adverse comment on the accused’s failure to give evidence was limited to the prosecution and did not extend to the Court; the Court, could, therefore, exercise its discretion and comment on that fact

(**R. v. Costantino Magri**, Criminal Court 5 August 1924; **The Police v. Filippa Fenech**, Criminal Appeal 8 May 1937; and **R. v. Rhodes** (1899) 1 Q.B.77, followed);

3. The Court’s discretion was to be exercised within certain well-defined limits. Both Maltese and English case-law appear to hold the view that (a) as a general rule, if comment by the Court is thought necessary, nothing must be said which might lead the jury to equate the accused’s absence from the witness box with guilt; but (b) in certain rare exceptions, where the principal facts relied upon by the prosecution appear not to be disputed by the defence, the trial judge may go a little further and make the comment than an inference can be drawn from those facts which point so strongly to guilt as to call for an explanation and that if no explanation is given when an innocent man would be expected either to give an explanation or to deny the principal facts, that is a factor which can be taken into consideration by the jury (**R. v. Costantino Magri**, *supra*; **The Police v. Filippa Fenech**, *supra*; **R. v. Corrie** (1904) 68 J.P.294; **R. v. Bernard** (1908) 1 Cr.App. Rep. 218; **Waugh v. The King** [1950] A.C. 203; **R. v. Jackson** [1953] 1 W.L.R. 591; **R. v. Pratt** [1971] Crim. L.R. 234; **R. v. Mutch** [1973] 1 All E.R. 178; **R. v. Bathurst** [1968] 1 All E.R. 1175; **R. v. Sparrow** [1973] 1 W.L.R. 488 considered).

4. In the present case, the principal facts relied upon by the prosecution were contested by the three accused in their statements to the police; and the judge’s comments on the failure of the accused to give evidence may well have led the jury to believe that they were to infer some guilt from their failure to take the witness box (*dicta* in **Griffin v. California** 380 U.S.606 approved).

The Court of Criminal Appeal quashed appellants’ conviction and ordered their re-trial in terms of section 508L(1) of the Criminal Code.

## MUMENT MAGIKU

Illum, tfal, għandna daqsxejn ta' bidla fil-logħba tagħna fis-sens l dak li qeghdin taraw fil-pagna tal-lum mhux xi logħba kompluta, iżda biex ngħid hekk, parti u prattika minn logħob.

Qeghdin taraw għaxar stampi li kull waħda minnhom hemm par idejn f'pozzizzjonijiet differenti. Dawn se nirreferu għalihom fil-hargiet li jmiss ta' dan il-Magazine f'din il-pagna bhala "Mossi" (caqlieq tal-pali ta' l-idejn). Għalhekk għalissa kull ma tridu tagħmlu huwa li intkom tagħmlu l-pali ta' idejkom bħal dawk li jidhru fl-istampi, biex 'il quddiem meta nirreferu għal xi whud minnhom, tkunu tafu liema "mossa" (bin-numru) qeghdin ngħidu għaliha.

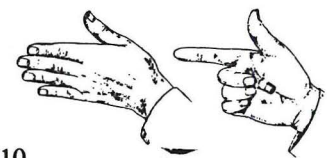

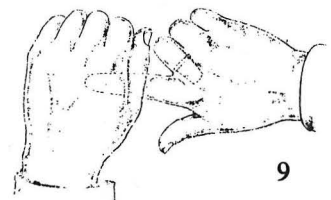

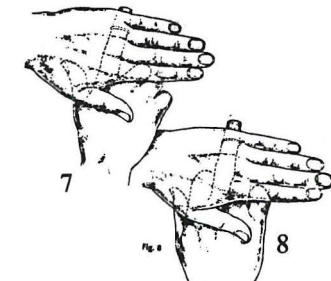

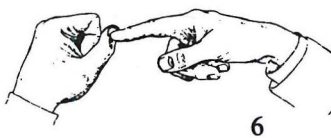

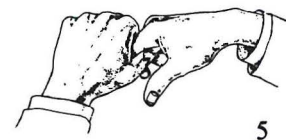

Tfal, tharsux lejn l-istampi kollha f'daqqa, għax għandkom mnejn taqtghu qalbkom, iżda hudu stampa wahda wara l-oħra, u ipprattikaw l-idejn bħal bik l-istampa.

### KELMTEJN...

Tfal, meta ftit ilu kont is-Summer Camp tagħkom, iltaqajt ma' hafna minnkom li kellmuni fuq din il-pagna. Bosta minnkom qaluli li l-parti tal-pagna "Mument Magiku" tinteresshom hafna, Min-naha tiegħi hsibt li din il-parti tinteressa l-aktar lis-subien, iżda mort zbaljat, għax tifla li kienet fostkom fis-Summer Camp tat-Tfal tal-Pulizija bdiet turini l-logħob kollu li wrejtkom f'din il-pagna tal-Magazine. Jien ninsab cert li bħalha kien hemm hafna minnkom bniet li kontu kapaċi wkoll tagħmlu dan il-logħob tal-magija. Li għogobni ferm kien li din it-tifla qaltli li dan il-logħob tal-magija tipprattikaw wara li tkun lestiet il-Homework, li għalkemm kien fi żmien il-vaganzi tas-Sajf, id-Daddy tagħha kien jagħtiha dik ix-xi haġa żgħira ta' studju x'tagħmel biex ma titraskurax.

## SERATI MEMORABBLI FIT-TEATRU MANOEL

# REMINIXXENZI FIL-25 ANNIVERSARJU MIR-RIJABILITAZZJONI TIEGĦU

•Wiehed ma jistax jaqbad jikteb fuq it-Teatru Manoel bla ma jhoss go fih sena ta' kburiya, u dan mhux biss ghax it-Teatru Manoel huwa llum kunsidrat bhala wiehed mill-aqwa teatri fl-Ewropa, b'mod partikulari li zzejnu b'gojjelli prezzjuzi li jsaħħar, lanqas imhabba l-konnessjonijiet tieghu mal-Kavallieri ta' Malta – billi gie mibni minn wiehed mill-Gran Mastri l-aktar nobbli, l-generuż Antonio Manoel de Vilhens fl-1731, imma l-iktar għar-rappreżentazzjonijiet indimentikabbli, ta' splendor liema bħalu, li ngħataw fih.

Il-ftuħ tiegħu bit-tragedja (mhux Opera Lirika) "Merope" tal-Markiz Francesco Scipione Maffei, maħduma mill-Kavallieri Taljani, hu diġà fatt sinjifikattiv, ghax biex tirrappreżenta tragedja klassika bħal dik, kien tabilhaqq att ta' kuragg, billi hi xogħol tassew iebes u li jitlob talent u immaginazzjoni mhux zghira biex taħdmu.

Għal rappreżentazzjonijiet simili t-Teatru kien jizzejjien bil-prezenza tal-Gran Mastru liebes "in grande gala", l-istess Kavallieri bil-ħwejjeg pittoreski tagħhom u d-dami ta' l-aqwa familji bl-ilbies ta' bil-lejl splendenti bil-gojjelli lelliexa u sbieħ li kienu ippittru persunthom. Wara dawn ir-rappreżentazzjonijiet il-Gran Mastru, il-Kavallieri, l-aqwa nobbli bid-dami tagħhom kienu jiġu mistiedna għal cena grand-juża mill-membri ta' dik il-Lingwa li tkun tgħat ir-rappreżentazzjoni. Dawn kienu tabilhaqq serati li ma jintesewx malajr u li aħna llum nirrikostruhom fil-fantasija, billi nagħquduhom ma' xeni oħra simili ta' kobar li għalihom gżirtna kienet bħal torċa ta' eleganza u seher, u li f'dik l-epoka ma kienx jagħmlu

### **jikteb** **V.M. PELLEGRINI**

għajb lil simili spetakoli li kienu jghaxqu lit-teatri ta' Ruma, Parigi, Vjenna jew Madrid.

Okkażjoni oħra li ma tintesix malajr kienet is-serata ta' l-4 ta' Diċembru 1838, meta r-Regina Adelaide ta' l-Ingilterra marret fit-Teatru Manoel qalb applaws, ghajjat ta' merħba, daqq ta' marċi u gwardji ta' l-unur, biex tattendi għar-rappreżentazzjoni ta' l-immortali Opera Lirika ta' Gaetano Donizetti, il-"Lucia di Lammermoor".

#### □ **ĠMIEL U ELEGANZA**

Fit-triq li minna kellha tghaddi l-Majestà Tagħha, mill-Palazz sat-Teatru, kienet mixgħela waħda u gwardja ta' l-unur, magħmula minn ufficċjali tar-Royal Malta Fencibles kienet stazzjonata fil-bieb tat-Teatru. L-istess Teatru minn ġewwa kien brillantement dekorat u meta r-Regina dehret fin-nofs tal-gwarniċ imdieheb tal-palk tal-

Gvernatur, kienet qisa xi pittura ta' xi artist famuż; fil-waqt li l-plateja u l-palki, mimlijin daqs bajda, kienu joffru lill-ghajnejn rapsodija ta' ġmiel u eleganza.

Iktar qrib lejna t-Teatru Manoel gie rijabilitat, wara r-restawri artistici li kienu mehtiega, imhabba li għal xi zmien kien għadda minn id għal oħra. L-inawgurazzjoni tiegħu bħala Teatru Nazzjonali saret fis-seba' u ghoxrin ta' Diċembru 1960 – hamsa u ghoxrin sena ilu – b'serata di gala indimentikabbli tal-Ballett "Coppelia" ta' Leo Delibes, mill-Kumpanija Inġliża "Ballet Rambert". F'din l-okkażjoni rajna vizjozi oħra li ma tintesix malajr, u li jiena, bħala wiehed mill-membri tal-"Manoel Theatre Management Committee" nominat mill-Gvernatur, kelli sehem siewi fiha wkoll, speċjalment għal fatt li intwera għall-ewwel darba go teatru Malti, Ballett Inġliż, xejn inqas spetakuluż u saħħari minn Opera Lirika li kienet u tibqa l-ghaxxa tal-Maltin.

made in the 1880s for the Police. The action is the same as the second model of R.I.C. revolver and the general arrangement of the frame is very similar. The cylinder holds six-shots of .450 calibre, and the barrel is 2½ inches long. The butt is the same length as for the larger models, making this a generous-sized weapon for the length of barrel that it has. There is a lanyard ring on the butt plate.

• **430 James Hill Model 1880.** Apart from the calibre, this revolver is virtually identical with the one described above. Webleys made it for the London gunsmith James Hill, and chambered it for the Eley .430 cartridge. Specimens can be easily

recognised by the initials 'W.J.H.' stamped on the frame.

• **R.I.C. No: 1 New Model 1883.** This model was really the last in the R.I.C. series to be made in any quantity. The differences were only small, and are outwardly apparent in the barrel lengths, and the fact that the cylinder is grooved. The standard barrel length was 4½ inches and the calibre was .455. The revolver was intended to cope with as wide a range of ammunition as possible, and at the time of its introduction it could fire at least seven different types of ammunition ranging from .476 to .450 and .44 Winchester.

• **Short Barrelled New Model 1883.** At the same time as the .455. New Model, Webleys introduced a short barrelled version in .450 calibre with a 2½ inch barrel. This was intended for

Police use, and the Metropolitan Force accepted it straight away. It was exported to the colonial Police forces, notably in Australia. The Police models were stamped with a Webley trademark showing two hands in handcuffs.

• **Naval Service R.I.C. Model 1884.** This model has several differences from the standard versions. In the main, these relate to the materials used in its construction, but the barrel length is altered also. The frame is entirely of brass, together with the majority of the external items of the mechanism. On the original weapons, the steel barrel, cylinder, hammer and trigger were blacked for protection from corrosion. The barrel was 2 5/8 inches long, and usually for Webley-made R.I.C. models, was octagonal.

# L-ISLA U L-BAMBINA

□ Min jithajjar jagħraf l-Isla jiltaqa' bilfors mal-figura grazzjuża tal-Bambina. Storikament, tant huma magħqudin flimkien, li ma tistax fuq waħda bla ma ssib lill-oħra wkoll.

L-istorja ta' l-Isla tista' tgħid li bdiet mal-wasla ta' l-Ordni ta' San Gwann. Il-Kavallieri bdew jamministraw dawn il-Gzejjer mill-belt antika tal-Birgu. Bejn din il-Belt u l-Għolja ta' Kordin, kien hemm peninsula b'zewg għoljiet, li laqet l-għajn tal-kavallieri. Għamluha maşgar, biex ikollhom fejn imorru għall-kaċċa, u bdew isejjhalha l-Isola, mnejn hadet isimha.

Wara l-herba li hallew it-Torok fl-1551, il-Gran Mastru D'Home-des iddeċieda li jibni fortizza fuq waħda mill-għoljiet ta' l-Isla, imsejha ta' S. Giljan, li tkun tista' tilqa' għal xi hbit li seta' jsir mix-xaqliba ta' Kordin u fl-istess hin tkun ukoll ta' harsien għall-Birgu. Tlestiet fl-1552 u ssejjet Forti San Mikiel. Din aktarx inbniet fejn illum hemm l-arloġġ tat-Tarzna.

Mal-mewt ta' D'Homedes sar Sultana La Sengle. Dan kompli saħħah id-difiża ta' l-Isla u ddeċieda li jagħmel minnha Belt ġdida. L-art bdiet tingħata b'ċens irhis, u mal-bini tad-djar intemm il-maşgar li hawwlu ta' qablu, u qalj qalj twieldet il-Belt li hadet ismu – Senglea.

Dak li basru li seta' jġiri D'Homedes u La Sengle seħħ fi żmien il-Gran Mastru La Valette. L-Armata Torka attakkat Malta bil-ħsieb li teqred l-Ordni darba għal dejjem fl-1565.

Wara l-waqa' ta' Sant Jiermu, fid-daħla tal-Port il-Kbir, it-Torok daru għall-Forti San Mikiel. Minn nofs Lulju sal-bidu ta' Settembru, is-Sengleani għadew minn twegħir kbir. Waqt l-attakki ma jaqtgħu xejn, issieltu b'kuragg kbir, u kull darba rnexxielhom ireġġgħu lura l-attakki tal-misilmin. Ir-rebħa waslet, kif kien bassar qassis twajjeb, f'Jum it-Twelid ta' Marija, it-8 ta' Settembru.

*minn*  
**ANTON F. ATTARD**

Dan il-jum sar għażiż għas-Sengleani, u wara li stejru xi ftit mill-faqar li hakimhom wara l-assedju, b'rikonoxxenza, fl-1580, bnew Knisja u ddedikawha lil Santa Marija tal-Vitorja, biex isservi ta' Mařkar tar-rebħa fuq il-mislem.

Għalkemm kellhom Knisja li kienet saret ukoll parroċċa, is-Sengleani kien jonqoshom statwa biex biha, bħal haddiehor, jiċċelebraw il-festa tagħhom. Din giet għandhom b'mod straordinarju jekk mhux providenzjali.

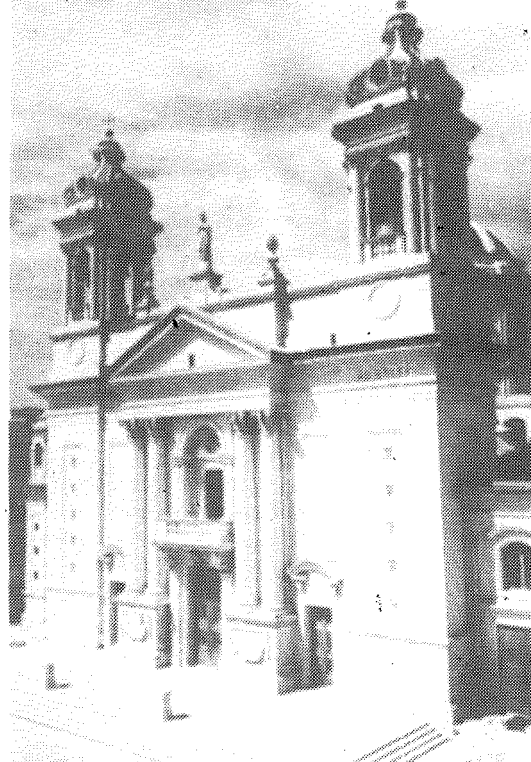

Għal habta ta' l-1618, xini li kien ibahħar fl-Adrijatiku, iltaqa' mal-maltemp u tfarrak mal-blat. F'dawn iż-żminijiet, ix-wieni, preċiż taħt il-puprest, maqlugħa 'l barra minn maz-zokk tal-pruwa, kien ikollhom, skolpita fl-injam, xi figura. Jekk il-gifen kien ikun ta' sidien Insara, aktarx kienet tkun ta' xi Qaddis li għalih kien ikun imsemmi l-bastiment. Din il-figura kienet tisesejjaħ Pulena.

## **XBIEHA TAL-MADONNA MTELLA' MILL-BAĖAR**

Kienet din li lemaħ titliegħeb f'wiċċ l-ilma kaptan ta' xini li kien ibahħar f'dawk l-inħawi, fi trieqtu lejn Malta. Giet imtella' abbord u nstab li kienet figura tal-Madonna.

Fuq ix-xini nżerta kien hemm tnejn mill-Isla, li talbu l-Kaptan biex jagħti dik ix-xbieha lill-Knisja tagħhom. – 1 –

Biex nersqu qrib legġendi li kienu jezistu sa mill-qedem, forsi jista' jkun, li l-Kaptan m'aċċettax mill-ewwel li jħalli l-figura fl-Isla. Allura għal sitt darbiet jipprova jsalpa, u kull darba li jagħmel dan, tqum maltempata u ma thalliehx. Wara dan, seta' gie persważ mill-Kappillan Talavera biex iħalliha hawn. Meta għamel hekk biss seta' jħalli Malta fil-bnazzi. – 2 –

*Il-faċċata tal-Bażilka-Santwarju ta' Marija Bambina fl-Isla.*

Aktar tard, il-Pulena giet indurata, żdiedetilha raġġiera u bdiet uġi meqjuma taħt it-titlu ta' l-Immakulata Kuncizzjoni, f'artall li sar apposta għaliha, u bdiet toħrog proċessjonalment fil-Festa Titulari tat-8 ta' Settembru, fil-festa tal-Kuncizzjoni u f'dik tal-Gilju.

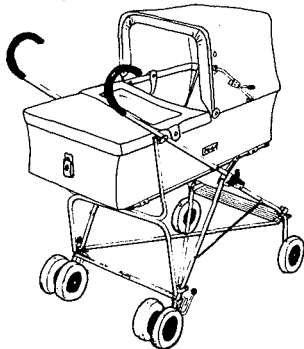

Meta f'jum it-8 ta' Settembru, l-Istatwa tal-Bambina bdiet tinħareg proċessjonalment, kif konfermat fil-Vista Pastoral ta' Cocco Palmieri fl-1686, kien ilbidu tal-mixja li kellha twassal għal bdil definit tat-titlu; minn dak ta' Immakulata Kuncizzjoni għal dak ta' Marija Bambina jew Vitorja. F'din il-mixja kien sar progress ġmielu, infatti fl-1718, Dun Fortunat Vella ddeskriva l-Istatwa bħala Marija BAMBINA Immakulata. – 3 – Sa l-1804 din il-mixja kienet waslet fi tmienha, għax f'dik is-sena, Marjanu Gerada naqqax l-istatwa artistika tal-Kuncizzjoni li hemm illum.

L-Istatwa tal-Bambina kellha sehem kbir fi grajjet importanti fil-hajja tas-Sengleani. Fl-1718 meta kienu fi križi kbira, minħabba nuqqas ta' ilma, sar pellegrinagg bl-istatwa għal Knisja tal-Madonna tal-Ħlas, f'Hal Qormi. Jingħad li waqt li dan kien sejjer lura, tant għamlet xita, li l-bjar faru. L-istess gara fl-1730, meta l-pellegrinagg sar għal Knisja tal-Grazzja f'Haż-Zabbar.

## APPELL

Il-Korp tal-Pulizija ta' Malta qiegħed jippjana u jaħdem fuq proġett sabiex jiġi mwaqqaf

### MUŻEW TA' OĠĠETTI U STORJA

#### TAL-KORP TAL-PULIZIJA

fejn jiġu esibiti materjal, ta' liema natura jkun, li għandu x'jaqsam ma' l-istess Korp.

Għalhekk, nistiednu lil dawk kollha li jgħandhom xi oġġetti, bħal Ritratti Qodma, Dokumenti, Midalji, Badges, Ilbies eċċ., li jistghu jirregalawhom, jew jisilfuhomna halli nieħdulhom ritratti, sabiex jagħmlu dan, biex il-Mużew jiġi attrezzat kif inhu xieraq.

Min iġhin f'dan ir-rigward, ismu jitnizzel f'Album ta' Tifkira fis-Sala ta' l-Esibiti.

Nirringrazzjawkom minn issa.

## IT-TEATRU MANOEL

### ● ikompli minn paġna 21

Malta, imdemma b'ħafna griċhi tat-Tieni Gwerra Dinjija; bit-Teatru ewlieni tagħha – Ir-Royal Opera House – li kien (u disgrazzjatament għadu) rovina waħda, kellha x-xorti li terġa' igġedded okkażjoni Soċjali oħra, denja rivali tat-tnejn l-oħra li semmejt iktar qabel. It-Teatru Manoel reġa' ha l-ħajja, kif jgħidu l-Inglizi "with a vengeance". Sens ta' eleganza kienet l-għajta ta' kulhadd u l-udjenza li mballat it-Teatru, kienet tabilhaqq distinta, bl-aqwa personalitajiet, nies li jiffurmaw il-krema tas-soċjetà, u nies oħra dilettanti tal-mużika minn kull klassi soċjali, li sabu ruħhom magħqudin qaçoċċa f'dan it-Tempju ta' l-Arti, li fih, bħal l-antenati tagħhom ta' mitejn sena qabel, ingabru biex igawdu rikreazzjoni onestà – "Ad honestaten populi dilectationem" – kif rieda l-fundatur tiegħu l-Gran Mastru Antonio Manoel

de Vilhena.

Dan li għedt illum daħal fl-Istorja ta' pajjiżna u dawn ir-remixenxi ma humiex ħlief memorji sbieħ ta' xi whud mir-rappreżentazzjonijiet memorabbli li saru fit-Teatru Manoel.

Il-Manoel, b'dan kollu għandu u jeħtieġ li jkollu, missjoni wisq iktar nobbli x'jaqdi minbarra r-repurtorju regolari u varjat li bħala Teatru jrid ikollu. Dan hu monument nazzjonali dehen ta' l-okkażjonijiet famużi li diġà kellu u li għad irid ikollu, iżda fuq kollox il-palkoxeniku tiegħu jrid ikun kamp ta' battalja intellettuali fejn it-talent lokali jrid jikkompeti ma' l-artisti rinomati li minn żmien għall-iehor jiġu mistiedna biex jonoraw dan it-Tempju ta' l-Arti, u għalhekk hu meħtieġ li l-attivitajiet tiegħu jkunu oltre li divertenti u ta mistrieħ mentali, anke istruttivi, artistici u denji tal-livell għoli li l-kultura Ewropeja tagħna jixirqilha.

## L-ISLA U L-BAMBINA

### ● ikompli minn paġna 24

Fl-1757, maltempati tal-biżgħa ħakmu dawn il-Gzejjer. Ir-riħ tant kien qawwi li beda jiġġarraf il-bini. Il-poplu, miġbur fil-Knisja għamel wegħda ta' pellegrinaġġ bl-Istatwa tal-Vitorja, għall-Knisja tal-Portu Salvu. Talbhom instema' u ħareġ il-bnazzi.

ħafna jsostnu li l-aktar grajja mportanti ta' l-Isla, wara dik ta' l-Assedju l-Kbir, kienet l-Inkronazzjoni ta' l-Istatwa tal-Bambina fl-4 ta' Settembru 1921, li għal żmien twil kien privileġġ uniku għal statwa f'Malta. Għal dik l-okkażjoni, l-Istatwa giet indurata, argentata u mzejjna b'gojjelli u ħaġar prezzjuż, biex ħadet is-sura li għandha illum.

Għandna għax inkunu grati lejn l-antenati tagħna, li bi bżulit-hom u aktarx ukoll bis-sagrificċji li għamlu, ħallew dawn l-opri, li qed ingawdu aħna illum.

## FOOTBALL

League tal-Football għad-Dipartimenti tal-Gvern u Korpi Parastatali 1985-86. Division II

**PULIZIJA** ..... 3  
**ENG. INST.** ..... 0

Wara bidu kemmxejn hażin f'dan il-league tal-Gvern u Korpi Parastatali t-team tal-Pulizija ried johrog rebbieh minn din il-logħba biex forsi jkollu xi tama li jspiċċa fl-ewwel postijiet ta' dan il-league.

Il-bidu ta' din il-partita kien xi ftit fortunat għat-team tal-Pulizija għaliex propju fil-5 minuta ta' l-ewwel taqsimu kien hemm xutt ta' Carmel Borg għat-team tal-Eng. Inst. li PC217 P. Dibbon deher li laqa', però l-ballun ħarablu minn idu u spiċċa mal-lastu. Wara din il-hasda inizjali t-team tal-Pulizija beda jidhol aktar fil-logħba u fis-16-il minuta ballun li deher destinat għal gewwa gie maqlugh minn fuq il-linja mill-captain tat-team tal-Eng. Inst. Gino Muscat. Fit-23 minuta wasal l-ewwel goal għat-team tal-Pulizija meta double kick ta' PS496 G. Borg ħabtet mal-lastu u mir-rebound PC366 E. Psaila tefa' l-ballun fix-xibka.

Għat-tieni taqsimu t-team tal-Pulizija kompli fejn halla fl-ewwel taqsimu u wara biss 4 minuti wasal it-tieni goal għat-team tal-Pulizija. Corner ta' PC129 R. Aquilina, għola tajjeb PC617 D. Camilleri li ndirizza l-ballun bir-ras lejn il-lastu, sab difensur jipprova jaqla' l-ballun 'il barra bir-ras iżda spiċċa gewwa. Fil-15-il minuta wasal it-tielet u l-aħħar goal għat-team tal-Pulizija fejn PC607 J. Camilleri rċieva ballun fit-tul, ħarab waħdu lejn il-lastu avversarja, u rnexxielu jqabbeż il-ballun minn fuq ras il-goalkeeper wara li dan ta' l-aħħar ħareġ mil-lastu biex jagħlaq l-angolu. Wara dan il-goal it-team tal-Pulizija għamel żewġ sostituzzjonijiet fejn PC960 J. Scerri daħal flok PC129 R. Aquilina u PC585 J. Calleja daħal flok PC1401 J. Pisani.

Wiehed mill-formazzjonijiet tal-Korps li ha sehem fil-league.

Għall-kumpliment tal-logħba t-team tal-Pulizija kompli jidetta l-logħba u reġa' mar vicin li jkabbar l-iskor meta fuq cross ta' PC585 J. Calleja PC960 J. Scerri tefa' l-ballun kemm kemm barra, biex l-iskor finali baqa' jaqra 3-0 favur it-team tal-Pulizija.

**PULIZIJA** ..... 0  
**P.W.D.** ..... 2

Din il-logħba li ntlagħbet fin-New Lyceum Ground kienet waħda ferm importanti għaż-żewġ naħat għaliex it-tnejn kienu biċ-ċans li jirbhu l-promozzjoni għall-Ewwel Diviżjoni. It-team tal-Pulizija nizeł għal din il-logħba b'formazzjoni nieqsa minn xi elementi mportanti u għalhekk it-team tagħna kien f'pożizzjoni inferjuri għat-team tal-P.W.D. li kellu players li jilgħabu fil-Premier Division tal-M.F.A. bħal George Xuereb tal-Hamrun Spartans, Stephen Xuereb tas-Sliema Wanderers u players oħrajn b'esperjenza fil-league tal-M.F.A.

Il-bidu tal-logħba kien hażin għat-team tagħna għaliex propju fis-6 minuta M. Rizzo għall-P.W.D. ta cross perfett lejn il-lastu tal-Pulizija fejn għola għall-ballun il-goalkeeper PS637 J. Bonello li ma ħax il-ballun u spiċċa għand D. Coleiro li bir-ras tefa' gewwa.

Il-logħba baqgħet xi ftit kwieta biż-żewġ naħat jikkontrollaw l-attakki tat-team avversarju, sa-

kemm fil-25' minuta gie ċans sabieh għat-team tal-Pulizija li jgħib id-draw meta minn cross ta' PC960 Scerri l-ballun gie għand PC607 J. Camilleri li pprova xutt lejn il-lastu li gie milqugh b'diffikultà mill-goalkeeper C. Farrugia tal-P.W.D. li tajjar il-ballun għan-nofs u mir-rebound il-ballun gie għand PC366 Psaila li ra x-xutt finali tiegħu jigi mblukkat mill-goalkeeper mgħejjun mil-lastu. Għaxar minuti wara wasal it-tieni goal għat-team tal-P.W.D. meta minn through pass ta' M. Rizzo lejn S. Theuma li għadda n-nassa tal-off side u waħdu quddiem il-goalkeeper ma kellux diffikultà li jiskorja.

Għat-tieni taqsimu t-team tal-P.W.D. daħhal lil A. Micallef flok G. Gatt. F'din it-taqsimu t-team tal-Pulizija pprova jnaqqas il-margni tal-iskor u propju fit-2 minuta wasal ċans tad-deheb meta PC960 Scerri rnexxielu jaħrab in-nassa tal-off-side u wara li avvanza waħdu fajjar xutt li mar barra. Wara żewġ minuti gie ċans iehor għal PC960 Scerri li fuq clearance hażin ta' difensur il-ballun gie għandu u waħdu quddiem il-goalkeeper reġa' tefa' għoli.

Il-partita kompliet bit-team tal-P.W.D. jikkontrolla tajjeb biex ħareġ rebbieh bl-iskor ta' 2-0 u jsaħħaħ iċ-ċans tiegħu għar-rebħ tal-league.
