The outcry of man for real freedom and true democracy is ringing throughout the world. The world which Allah created for the benefit of mankind has been changed into a hell.

Millions upon millions of people whom God created equal have been turned into slaves by capitalists and dictators alike. East and West are pointing an accusing finger towards each other, with interference in the internal affairs of their respective satellites. Ideological warfare is in perpetual motion and the great powers are accused of striving for world domination.

The struggle for supreme power is increasing with every tick of the clock. Deadly weapons are being produced in the name of freedom and democracy. For ages, brilliant men have laboured hard to create a practical and just way of living. They have struggled incessantly and riddled their mind in search of a practical system befitting free and civilised communities. All of them have failed.

It was only recently that a ray of green light appeared on the horizon shedding a ray of hope for a better life for all mankind throughout the world. The source of the green light, with a ray of hope for a better living, is the Socialist Peoples' Libyan Arab Jamahiriya.

My story is a shining example of a modern state of slavery and the burning desire of a newly-born nation to demonstrate what might be called a heavenly way of life on this our planet created for us by Allah in preparation for the beginning of a second life of perpetual joy in complete freedom and democracy.
