

The School of Performing Arts launches the SPACE Project

The [School of Performing Arts](#) at UM has recently launched the **SPACE (School of Performing Arts Community Engagement)** Project.

The project aims to support all initiatives taken by the said school in reaching out to diverse groups within the University of Malta and beyond. This initiative aims to facilitate engagement with the public through open lectures as well as through collaborations with stakeholders and other organisations.

SPACE's primary focus is on social impact and an effective response through the performing arts to the varied needs and expectations of the community. Through this project, the School aspires to highlight the value and place of the performing arts not only in venues of artistic expression but also in hospitals, homes for the elderly, migrant centres, correctional facilities, youth centres, and schools among others.

All this should contribute to enhancing student experience, provide training in this domain, and generate engagement opportunities for alumni.

Through this [Quality Mailshot Initiative](#), the [QAC](#) aims to disseminate best practices at UM that align with both national and European standards for quality in higher education. If you have an example of good QA practice which you would like us to share, please get in touch with us at qac@um.edu.mt
