TAQSIMA A

Aqra din is-silta u wieġeb il-mistoqsijiet KOLLHA.

Minn mindu x-xjentisti soċjali bdew jistudjaw is-soċjetajiet, bdew jaraw is-sehem importanti li r-religjon għandha fis-soċjetà. Ir-religjon mhix ħafifa biex tiddefiniha speċjalment meta tqis il-bosta sistemi ta' twemmin li jeżistu f'kulturi differenti. Xi wħud ir-religjon iddefinewha f'termini tal-kontenuti tagħha jiġifieri skont l-oġġetti u l-postijiet jew l-avvenimenti li jitqiesu sagri, twemmin f'alla jew f'allat jew twemmin f'hajja wara l-mewt. Oħrajn ir-religjon iddefinewha f'termini tal-funzjonijiet tagħha. **Ir-religjon twettaq ghadd ta' funzjonijiet kemm għall-individwi u kemm għas-soċjetajiet** bħal meta tipprovdi solidarjetà soċjali u kontroll soċjali. Imma r-religjon tista' wkoll tkun sors ta' konflitt u tensjoni kif turi l-istorja. Illum il-ġurnata, fis-soċjetajiet kontemporanji tagħna kkaratterizzati mid-diversità, komunitajiet religjuzi differenti li jeżistu fl-istess soċjetà jistgħu iwasslu għal intolleranza soċjali, diskriminazzjoni, u diviżjonijiet soċjali.

Hemm dawk li jqisu lilhom infushom religjuži imma mhuma qegħdin f'ebda organizzazzjoni. Però bosta nies jesprimu t-twemmin religjuž tagħhom permezz ta' xi organizzazzjonijiet religjuži bħal knejjes, **setet**, denominazzjonijiet, **movimenti religjuži godda**, u kulti. F'soċjetajiet tradizzjonali, in-nies għandhom tendenza li jkunu parti minn komunità jew organizzazzjoni religjuža. Imma, minhabba processi bħall-bidla soċjali u l-globalizzazzjoni, is-soċjetajiet illum x'aktarx li huma kkaratterizzati mid-diversità religjuža u l-libertà religjuža. Il-bidla soċjali wasslet ukoll għal sekularizzazzjoni jew tnaqqis mill-importanza tar-religjon, li **huwa rifless f'għadd ta' xejriet soċjali kontemporanji**.

1. Fisser fil-qosor dawn il-kunċetti:

- (a) Religjon; (2)
- (b) Kontroll soċjali; (2)
- (c) Setet; (2)
- (d) Diversità religjuža; (2)
- (e) Libertà religjuža. (2)

2. (a) Spjega din is-sentenza: “Ir-religion twettaq għadd ta’ funzjonijiet kemm għall-individwi u kemm għas-soċjetajiet.” (4)
- (b) Semmi **TLIET** funzjonijiet oħra tar-religion minbarra dawk li ssemmew fis-silta. (6)
3. Agħti definizzjoni ta’ “sagru”. Semmi **ŻEWĞ** eżempji ta’ “oġġetti” u “postijiet” u **ŻEWĞ** eżempji ta’ “avvenimenti li jitqiesu sagri” f’xi religion li trid int. (10)
4. X’tifhem b’“movimenti reliġjużi ġodda”? Semmi eżempju **WIEHED** ta’ moviment reliġjuż ġdid. (5)
5. Ikteb paragrafu ta’ xi 80 kelma biex tiddiskuti kif is-sekularizzazzjoni hija riflessa f’għadd ta’ xejriet soċjali kontemporanji. (15)

TAQSIMA B

Aqra din is-silta u wieġeb il-mistoqsijiet KOLLHA.

Mill-aħħar tat-Tmeninijiet (1980s), il-populazzjoni Maltija żviluppat mill-għamla tradizzjonali ta’ piramida għal mudell ta’ distribuzzjoni aktar indaqs ta’ gruppi ta’ etajiet differenti, ħlief għal dawk tal-quċċata. Il-figuri tal-Uffiċċju Nazzjonali tal-Istatistika (NSO) juru li fl-aħħar tal-2013, 105,069 persuna jew 24.6% tal-populazzjoni totali kienu qabżu s-60 sena.

Dawn ix-xejriet demografici tal-populazzjoni Maltija li qed tixieħi wasslu għal **Politika (Policy) fuq l-Anzjanità** Maltija. L-aħħar *policy* ta’ din ix-xorta hija ‘Il-Politika (Policy) Strategika Nazzjonali għal-Anzjanità Attiva: Malta 2014-2020’ li għandha tliet temi wiesgħa: partiċipazzjoni attiva fis-suq tax-xogħol, partiċipazzjoni soċjali, u għajxien indipendenti. L-ghan ewlieni tal-*policy* huwa li tagħmilha possibbli għal dawk il-persuni ’l fuq mill-età ta’ rtirar statutorja sabiex jibqgħu jew jerġgħu jidħlu f’impieg. Dan l-objettiv huwa neċċesarju għas-soċjetà Maltija biex tikkumbatti **livelli li qed jaqgħu tal-populazzjoni li qiegħda fl-età tax-xogħol u tnaqqas l-impatt fuq in-nuqqasijiet ta’ ħiliet u r-ratio ta’ dipendenza ta’ gruppi soċjali vulnerabbli fuq is-servizzi ta’ assistenza soċjali**. Timmira wkoll biex ikun hemm partiċipazzjoni kontinwa ta’ persuni anzjani f’awvenimenti soċjali, ekonomiċi, u ċivici. Dawn l-istili ta’ hajja partiċipatorja u attiva jghinu lill-persuni anzjani sabiex jegħelbu l-ostakli strutturali li jistgħu jwasslu għal esperjenzi mhux mixtieqa ta’ eskużjoni materjali u soċjali.

Il-Politika (Policy) Strategika Nazzjonali kienet ikkomplementata b’miżuri oħra ta’ *policy* bħ-twaqqif ta’ *care-homes* u ċentri ta’ *day care* tal-gvern għall-anzjani. F’dawn iċ-ċentri jiġu pprovduti *modules* ta’ tagħlim fuq teknologiji ta’ informazzjoni u komunikazzjoni flimkien ma’ sessjonijiet edukattivi fuq titjib kulturali.

Il-policy soċjali tal-anzjanitā qiegħda fl-aħħar mill-aħħar tgħin biex twassal lil persuni anzjani biex jibqgħu cittadini attivi li jagħtu sehemhom fis-soċjetà, u b'hekk tbiddel il-perċezzjoni tas-soċjetà Maltija tal-anzjanitā minn waħda ta' passività u dipendenza għal perċezzjoni ta' anzjanitā attiva li jgħixuha b'mod dinjituż waqt li jikbru fl-età.

 - (a) Xejriet demografiċi; (2)
 - (b) Politika (*Policy*) fuq l-Anzjanitā; (2)
 - (c) Servizzi ta' assistenza soċjali. (2)

2. Identifika **TLIET** konsegwenzi soċjali ta' “livelli li qed jaqgħu tal-populazzjoni li qiegħda fl-età tax-xogħol” u elabora fuq kull waħda. (9)

3. Spjega, f'madwar 50 kelma, għala l-grupp tax-xjuhija fil-populazzjoni Maltija kiber f'dawn l-aħħar deċennji. (10)

4. Iddekskri, f'madwar 50 kelma, mizuri kontemporanji ta' *policy* fis-soċjetà Maltija li l-għan tagħhom hu li jippromovu aktar ghajxien indipendenti għall-anzjani. (10)

5. F'paragrafu ta' madwar 80 kelma, iddiskuti kif l-anzjani jistgħu jibqgħu attivi fil-komunità sabiex jegħelbu esperjenzi mhux mixtieqa ta' esklużjoni materjali u soċjali u jibqgħu integrati fil-komunità. (15)

MAY 2017 SESSION

SUBJECT:	Social Studies
PAPER NUMBER:	I
DATE:	29 th May 2017
TIME:	9:00 a.m. to 11:05 a.m.

Answer **ALL** the questions from both sections.

SECTION A

Read the text and answer ALL the questions.

From the time that social scientists started studying societies, they have recognised the important role that religion has in society. **Religion** is not easy to define especially considering the many belief systems which exist in different cultures. Some tended to define religion in terms of its contents, that is with regards to **objects and places or events which are considered sacred**, belief in a god or gods or belief in an afterlife. Others have defined religion in terms of its functions. **Religion performs a number of functions both for individuals and societies** such as providing social solidarity and social control. However, religion can also be a source of conflict and tension as history has shown. Nowadays, in our contemporary societies characterised by diversity, different religious communities existing in the same society may lead to social intolerance, discrimination and social divisions.

There are those who consider themselves to be religious but do not belong to any organisation. However, many people express their religious beliefs through religious organisations such as churches, **sects**, denominations, **new religious movements** and cults. In traditional societies, people tend to belong to one religious community or organisation. However, as a result of processes such as social change and globalisation, societies nowadays tend to be characterised by **religious diversity** and **religious freedom**. Social change has also led to secularisation or a decline in the importance of religion, which is reflected in a number of contemporary social trends.

1. Briefly define the following concepts:

- (a) Religion; (2)
- (b) Social control; (2)
- (c) Sects; (2)
- (d) Religious diversity; (2)
- (e) Religious freedom. (2)

2. (a) Explain the following sentence: “Religion performs a number of functions both for individuals and for societies”. (4)
(b) Mention **THREE** other functions of religion apart from those mentioned in the passage. (6)
3. Define the word “sacred”. Give **TWO** examples of “objects” and “places” and **TWO** examples of “events which are considered sacred” in any religion of your choice. (10)
4. What do you understand by “new religious movements”? Mention **ONE** example of a new religious movement. (5)
5. Write a paragraph of about 80 words to discuss how secularisation is reflected in a number of contemporary social trends. (15)

SECTION B

Read the text and answer ALL the questions.

Since the late 1980s, the Maltese population has developed from the traditional shape of a pyramid to a more even distribution model of age groups, except those at the top. Figures by the National Statistics Office (NSO) show that at the end of 2013, 105,069 persons or 24.6% of the total population were more than 60 years old.

These **demographic trends** towards an ageing Maltese population gave rise to a Maltese **Ageing Policy**. The latest policy of this kind is the ‘National Strategic Policy for Active Ageing: Malta 2014-2020’ which targets three broad themes: active participation in the labour market, social participation, and independent living. The main aim of the policy is to enable persons above statutory retirement age to remain in or re-enter employment. This objective is necessary for Maltese society to combat **falling levels of the working age population** and to lessen the impact on skills shortages and dependency ratio of vulnerable social groups on **welfare services**. It also aims for continuous participation of older persons in social, economic, and civic affairs. Such active participative lifestyles help older persons to overcome structural barriers that may result in unwelcome experiences of material and social exclusion.

The National Strategic Policy was complemented by other policy measures such as the setting up of government-owned care homes and day care centres for elderly persons. Learning modules on information and communication technologies together with educational sessions on cultural enrichment are provided in these centres.

Ageing social policy is ultimately helping to empower older persons to remain active contributing citizens, thereby changing Maltese society's perception of old age from one of passivity and dependency to a perception of active ageing lived with dignity as the years advance.

(Adapted from: Marvin Formosa (2016): "Ageing" in M. Briguglio & M. Brown (eds.), *Sociology of the Maltese Islands*)

1. Briefly define the following:

- (a) Demographic trends; (2)
- (b) Ageing policy; (2)
- (c) Welfare services. (2)

2. Identify **THREE** social consequences of the "falling levels of the working age population" and elaborate on each. (9)

3. Explain in about 50 words why the old age group in the Maltese population has increased in the last decades. (10)

4. Describe, in about 50 words, contemporary policy measures in Maltese society aimed at promoting more independent living for elderly persons. (10)

5. In a paragraph of about 80 words, discuss how elderly persons can remain active in the community so as to overcome unwelcome experiences of material and social exclusion and remain integrated in the community. (15)
