Introduction

This syllabus is based on the curriculum principles outlined in *The National Curriculum Framework for All* (NCF) which was translated into law in 2012 and designed using the *Learning Outcomes Framework* that identify what students should know and be able to achieve by the end of their compulsory education.

As a learning outcomes-based syllabus, it addresses the holistic development of all learners and advocates a quality education for all as part of a coherent strategy for lifelong learning. It ensures that all children can obtain the necessary skills and attitudes to be future active citizens and to succeed at work and in society irrespective of socio-economic, cultural, racial, ethnic, religious, gender and sexual status. This syllabus provides equitable opportunities for all learners to achieve educational outcomes at the end of their schooling which will enable them to participate in lifelong and adult learning, reduce the high incidence of early school leaving and ensure that all learners attain key twenty-first century competences.

This programme also embeds learning outcomes related to cross-curricular themes, namely digital literacy; diversity; entrepreneurship creativity and innovation; sustainable development; learning to learn and cooperative learning and literacy. In this way students will be fully equipped with the skills, knowledge, attitudes and values needed to further learning, work, life and citizenship.

What does a study of the subject entail?

The study area, SEC Dance, aims at providing candidates with a progressive and holistic approach to knowledge of dance practice. As a performing arts subject, dance encourages the learning of technical movement skills, movement creation, reflection and appreciation. It is a means of non-verbal communication, expressing ideas and emotions. The broad learning outcomes identify such knowledge, skills and values that candidates achieve and demonstrate throughout the course of the programme. Dance as a subject gives candidates a platform to utilise their performance and choreographic skills in different learning contexts. In doing so, the SEC Dance keeps itself aligned with the NCF in adopting a "more cross-curricular, thematic, interdisciplinary and collaborative approach that reflects real life situations and encourages transfer of skills from one learning area to another." (p.xiii)

What does a study of the subject entail?

The aims of the course, based on this syllabus will enable candidates to:

- Acquire the technique and skills necessary to create and perform in dance.
- Experience the enjoyment of participation in dance through appropriate practice.
- Understand and appreciate dance practice, theory and observation.
- Value the contribution that dance can make to physical activity, social interaction and mental stimulation.
- Develop a range of transversal skills, including, collaboration, leadership, communication, innovation, evaluation, organisation, and resilience.

How is the subject related to candidates' lives, to Malta, and/or to the world?

This syllabus is designed in line with the National Curriculum Framework (2012, p.36) as it provides opportunities for learners to be creative and imaginative, to experience enjoyment and inspiration, and to develop skills in one of the performing arts. Participation enables learners to experience and enjoy the energy and excitement of, performing and

presenting for different audiences and of being part of an audience for others. Learning in this area involves the development of artistic and creative skills, as well as technical and practical knowledge through dance.

An education in dance can widen the student's cultural horizons through the exposure to local and international artists as well as performance.

The dance sector offers several areas of interest and possibilities, such as job or study related opportunities.

The local performing arts scene is a steadily growing industry, fuelled by the introduction of a national dance company in 2014, national theatre in 2017, and several theatres and festivals that promote Malta's dance community. This growth would require experts in the industry, both from performance and technical standpoints.

At the end of the programme, I can:

1. perform a range of movement techniques
2. identify ways in which I can control, align, and co-ordinate my body in space.
3. have a knowledge of expressive performance skills
4. understand the requirements of performance practice attributes, such as commitment, concentration, and planning.
5. demonstrate an understanding of elements related to musicality.
6. demonstrate an understanding of health and safety practices in dance
7. critically appreciate and evaluate own performance and choreographic work
8. critically appreciate and evaluate professional works
9. communicate in a variety of contexts about performance practices.
10. demonstrate knowledge of choreographic processes.
11. choreograph using a variety of choreographic devices.

Scheme of Assessment

School Candidates

The assessment consists of Paper I and Paper II. Paper I consists of unmoderated school-based assessment (SBA) that is to be set and assessed by the school. Paper II consists of a controlled assessment that will take place at the end of the three-year programme.

School-based assessment (SBA): is any type of assessment of a candidate made by the school relevant to the respective SEC syllabus contributing to the final level awarded in the subject.

Controlled assessment: is comprised of a two-hour written exam (30%) and a performance component (40%) comprising of a set mini class and a choice of one set dance routine; set at the end of the programme and differentiated between two tiers:

- a. Levels 1 and 2;
- b. Levels 2 and 3.

Candidates are to satisfy the examiner in Paper I and Paper II to obtain a level higher than 1.

Paper I - School Based Assessment: 30% of the total marks.

The school-based assessment shall be marked out of 100 each year (9, 10 and 11). The assessment for each year will contribute to 10% of the overall mark and will be reported to MATSEC by the school in Year 11. Therefore, each year will equally contribute to the final mark of the school-based assessment. The school-based assessment shall reflect the MATSEC syllabus covered in Year 9, Year 10 and Year 11.

School-based assessment can be pegged at either of two categories:

- SBA at categories 1-2 must identify assessment criteria from these two levels. It is suggested that ACs are weighted at a ratio of 40% at Level 1 and 60% at Level 2.
- SBA at categories 1-2-3 must identify assessment criteria from each of Levels 1, 2, and 3. It is suggested that ACs are weighted at a ratio of 30% at each of Levels 1 and 2, and 40% at Level 3. The mark for SBA at level categories 1-2 presented for a qualification at level categories 2-3 will be calculated to 60% of the original mark. The mark stands in all other cases.

Paper II - Controlled Assessment (70% of the total mark)

The controlled assessment is made up of TWO parts – Part I written paper and Part II performance.

Part I Written Examination (100 marks; 1 hour 45 mins) – 30% of the total mark

The controlled component of the assessment will consist of ONE paper having an hour and 45 mins duration that will carry 30% of the final mark and assessed externally. The paper will be set in English.

The controlled assessment is differentiated between two categories. Candidates must choose to sit the examination paper either at LEVEL Level 1-2 or at LEVEL Level 2-3.

The controlled exam paper is divided into THREE Sections:

- i. Section A – Knowledge and Understanding of Choreographic Process and Performance Skills
30% - 5-6 questions
- ii. Section B – Health and Safety in Dance
20% - 10 multiple choice questions, 4-5 short answer questions, which can be multimodal.
- iii. Section C – Dance Anthology¹²
50% - 4 short answer questions - 2 discussion type questions

Category Levels 1 – 2

The written paper will consist of questions covering assessment criteria from the syllabus in ratio Level 1 - 40%; Level 2 - 60%. Questions will be objective and structured, requiring short responses. These can include multiple choice questions, completion, cloze, matching etc. Questions may include stimulus materials such as graphs, diagrams and photographs. The questions set will assess the students' understanding and application of the main concepts of the programme and the acquisition of basic skills.

Category Levels 2 – 3

The written paper will consist of questions covering assessment criteria from the syllabus in ratio Level - 2 40%; Level 3 - 60%. Questions will be varied and will include objective, problem solving and free response writing. Questions may include stimulus materials such as graphs, diagrams and photographs. The questions set will assess the students' understanding and application of the main concepts of the programme and the acquisition of basic skills.

Part II Performance Examination (100 marks; 15 mins) – 40% of the total mark

The performance examination is divided into FIVE Sections¹³:

- i. Set Warm Up (5%)
- ii. Floor Work to the Set Music (10%)
- iii. Set Travelling and Turns (5%)
- iv. Set Elevation (5%)
- v. Set Dance (choice of 1 out of the 2 set pieces) (15%)

Candidates are assessed on skills and techniques related to the performance component, these skills and techniques are categorised according to prescribed norms which are provided as footnotes in this syllabus.

More details about the controlled assessment can be found in the Appendix.

¹² Refer to Appendix 2

¹³ See Appendix 1 for Mini Class Table

Private Candidates

Private candidates will not be expected to carry out any school-based assessment as school candidates. Instead, private candidates need to sit for another Controlled paper as an alternative to the school-based assessment. Private candidates will be assessed through the means of TWO Controlled papers, one of which is common with school candidates.

Paper I – Controlled Assessment - Private Candidates Only (30% of the total mark)

Written Examination (100 marks)

Paper I for private candidates shall be a controlled assessment assessing levels 1, 2 and 3 as described in the respective syllabus and set and marked by MATSEC. It shall mainly focus on the learning outcomes marked in the respective syllabi as suggested for school-based assessment.

Learning outcomes with assessment criteria in the psychomotor domain can be assessed by asking questions in pen-and-paper format seeking understanding of the activity.

It is comprised of a written paper of a maximum duration of two hours.

Paper II is common with school candidates

<p>Paper II (common with school candidates) 2 hours Written (Part 1) and Performance (Part 2)</p> <p>In part 1, candidates answer questions assessing level 1 and 2, or 2 and 3. Questions include short-answer questions, multiple-choice questions, and/or short data-response questions. Part 2 is a performance exam comprising of a set mini class and a choice of one set dance routine.</p> <p>Written (Part 1) – 30 % Performance (Part 2) – 40%</p>	<p>Paper I 2 hours Written</p> <p>Candidates answer questions assessing levels 1, 2 and 3. Questions include short-answer questions, multiple-choice questions and longer questions. The examination paper will mostly assess the LOs that are chosen for SBA in the syllabus.</p> <p>100 marks – 30%</p>

Instructions for Set Dances:

Below are some basic guidelines related to the set exercises and dances. Please refer to the enclosed videos for the exact sequences. Please note that the set dances have been choreographed in such a way that they can be stylistically interpreted based on the dance experience of each student.

Warm Up – Start facing front. At the end of each set, make a quarter turn in an anticlockwise direction. Continue until the set has been completed four times. Finish facing front.

Floorwork – Wait eight counts before starting. At the end of the first set, take eight counts to walk to the other side and prepare to perform the sequence again. Finish by taking eight counts to walk to the original starting place.
