PHR 4220 COMPUTATIONAL CHEMISTRY PROJECT 3

The Pharmacy Department Symposium Computer Presentation

The Pharmacy Department Symposium is the forum within which the research work carried out over the last 3 years is first disseminated orally. For the symposium, each student will prepare a:

Poster

5-minute oral presentation

The oral presentation should be prepared in Microsoft Powerpoint 2010 format and should include comprise 5 slides excluding the title slide. The presentation should be sectioned as follows:

Project
title Aims

Methodology

Progress

Efforts should be made to ensure presentation clarity as follows

Use of simple fonts (Arial/Times New Roman)
Use of sufficiently large font size (24, Bold, Double Spaced)
Use of dark background; and avoid the use to too many colours
Judicious use of upper and lower case fonts for emphasis and content segregation
Presentation of one theme per slide
Not crowding slide with high density font ad graphics
Phrases preferred over complete sentences
Round integers to the nearest whole number
Limit table size and label graph axes clearly and correctly

All graphs, figures and tables should be clearly captioned

Embedded videos should not exceed 20 seconds duration

The presentation must be submitted on respective VLE area in pdf with surname, name of student and course.
