PHR 4220 COMPUTATIONAL CHEMISTRY PROJECT 3

The 5-line Description

The 5-line description of your project should not exceed 600 characters including spaces. Submission must be made to the project supervisor by 31st January 2022. The content of the 5-line description should derive from those submitted for PHR3220, but they should reflect the progress made in the understanding of the subject matter at hand during the first year of research. Specifically emphasis should be made on results obtained.

The criteria for presentation are as follows:

Name of Project	Times New Roman Bold 14
Name of Student	Times New Roman Bold Italic 12
5-line Description	Times New Roman 12
Justified Text	Yes
Line Spacing	1.0

Submission must be made via the electronic website by 31st January 2022.
