

- All students in the field of pharmacy must be nominated by the sending institution to the International office of the receiving institution by latest 31 May of the preceding academic year.
- Students applying for study-units for a mobility period of only one semester will not be eligible to select study-units which are held over two semesters since the coursework is spread over both semesters.
- Students applying for study-units offered in the second semester in the fourth year of the BSc (Hons) Pharmaceutical Science course should note that the assessment is comprehensive and may include aspects that were covered in earlier modules of the subjects.
- Students are accepted to follow study-units on condition that they follow a full semester/year of one particular course and course year i.e. follow the same programme as the local pharmacy students. Requests to select study-units offered from different courses and years will not be considered.
- Study units 'Pharmacy practice project 1, 2 and 3' and 'Medicinal chemistry project 1, 2 and 3' are not offered to mobility students since the fieldwork of the modules follows-on from one year to another.
- Requests for placements are considered in hospital pharmacy, community pharmacy, pharmaceutical regulatory sciences, pharmaceutical technology and analysis, and no ECTS are awarded from the receiving institution.
- Requests to carry out a research project are considered between October and June and no ECTS are awarded from the receiving institution.
- ALL students must have a good command of the English language (B2 or better).

Further information may be obtained from the Erasmus+ incoming section of the International Office.

Interested students may contact the Head of the Department of Pharmacy, Professor Lilian M. Azzopardi directly via e-mail ([lilian.m.azzopardi@um.edu.mt](mailto:lilian.m.azzopardi@um.edu.mt)).
